- A. The city manager shall employ a port director who shall have general control and supervision of docks, small boat harbor, and boat ramp facilities and shall preserve order at all times about the same. The port director shall enforce all regulations and tariffs governing public use of the small boat harbor, dock and boat ramps.
- B. The port director may prohibit the use of any wharves and docking facilities owned or controlled by the city at any time when closing the facilities is required to protect and preserve the public welfare and safety.
- C. The utilization of any city-owned or city-operated mooring facility or waterway within the dock area, boat ramp areas, and small boat harbor shall be deemed as a grant of authority to the city manager, port director, or any other person authorized by the city council to board the vessel for the purpose of enforcing this chapter and to move the vessel if it is moored in violation of any provision of this chapter or if required by an emergency or other provision set forth in this chapter.
- D. The port director is granted the power and authority to, from time to time, but without any obligation or duty to do so, and without any obligation or liability on his part or that of the city for not doing so, replace defective mooring lines, pump vessels which are in dangerous condition for lack thereof, and to move any vessel for the purpose of protecting the vessel from fire or other hazard, or for the protection of other vessels therefrom. Whenever the port director shall perform any of the acts herein before authorized, after having given notice to the vessel owner or operator at the registered address of the immediate need therefor, or having attempted to give such notice, the vessel's owner is required to pay to the city such fees as are set forth by the city council by resolutions.
- E. The authority granted to the port director shall not create an obligation or duty requiring the port director to take any action to protect or preserve any vessel or property located within the port or utilizing the port's facilities. The city shall not be responsible for loss or damage from fire or other casualty, or theft, vandalism or any other causes of injury to vessels or property moored or located within the port. The city shall not be responsible for any items which have been impounded.
- F. The port director shall enforce areas designated by the city within the port for various uses, shall mark reserved and transient mooring areas and loading zones, and shall post such other signs, markings, numbers or informational devices as will notify and inform interested parties of authorized and prohibited uses of the port and harbor.
