Hi
Greg Lee

After looking at the situation of putting the driveway on craig street into this lot.
I would like to get a city approval for a variance.
To put down four inches of gravel and two inches of black top.
To get to the driveway, and at my expense.
And when needed to fully develop the street for addition of houses, we will complete putting in water and curb to Dodgeville specs.

With no curb construction or water extensions at this time..

If there's documents for variance that I need to fill out, please forward them to me.

This is actually less distance than it was approved on
Red Ruth.

The construction of this road will start as soon as I can. Get the contractors together.

Any questions email me or call me, please. 6085740299.

Subject: Craig St Driveway Application

Tony,

In reviewing the Craig St Driveway Permit Application I have the following comments:

- The driveway needs to come off on an improved Craig St as we have discussed several times in the past. Craig St should be extended to the north property line with aggregate base, curb and gutter, water main and asphalt pavement, as approved by the City.
- The permit needs to disclose the present and proposed use of the parcel of parcels for which access is requested
- The date on which the driveway will be constructed if the driveway is approved
- All drawing information boxes and other information required should be completed on the application

Thanks,

Gregory J Lee, PE

Director of Public Works

City of Dodgeville

(608)-930-1011
