**RE: Dodgeville well #8 Well Rehab Proposal**

Brian,

Municipal Well and Pump appreciates the opportunity to submit this proposal for the rehabilitation of Well #8.

As noted in the televising report, the open borehole has significant biofilm growth throughout the well. We believe air shocking the well followed by a chemical rehabilitation will substantially clean the formation and may also reopen fractures, potentially improving well flow and performance.

While specific results cannot be guaranteed, we believe this is the most effective approach for cleaning and rehabilitating the well at this time.

We also recommend brushing the casing and re-televising the well to confirm the overall condition of the casing after cleaning.

**Scope of Work**

- Mobilize crew and equipment to Well #8
- Brush casing to remove scale and buildup
- Televis casing after brushing to inspect overall condition
- Air shock the well using compressed air to remove remaining biofilm and help reopen fractures within the borehole
- Install tremie pipe to approximately 700'
- Inject rehabilitation chemicals through the tremie pipe during installation to treat the entire open-hole formation
- Install temporary submersible pump assembly
- Circulate WD3100 and sodium hypochlorite through the pump and back down the tremie pipe to aggressively treat the well and formation
- Pump out debris and perform test pumping to evaluate rehabilitation progress
- Repeat chemical treatment process if necessary
- Bail out debris remaining at the bottom of the well

See pricing below:

Item #	Item Description	Quantity	Units	Unit Price	Extended Price
1	Mobilization	1.00	LSUM	\$ 4,100.00	\$ 4,100.00
2	Brush and bail well	1.00	LSUM	2,840.00	2,840.00
3	Airshock Well	1.00	LSUM	6,550.00	6,550.00
4	Chemical Rehab	1.00	LSUM	13,010.00	13,010.00
5	2nd chemical batch (if needed)	1.00	LSUM	5,110.00	
6	Televisive Well	1.00	LSUM	1,040.00	1,040.00

<b>Total Project Proposal</b>					<b>\$ 27,540.00</b>

\*Does not include freight for any materials or chemical

After reviewing the above proposal, should you have any questions or concerns, or if there is any other way we can be of assistance to your community, please feel free to contact me at your convenience.

We appreciate the opportunity to provide this proposal and look forward to continuing to provide the City of Dodgeville with expert service throughout this project.
