The State or any of its duly authorized representatives must have access, upon reasonable notice, to such books, records, documents, and other evidence for the purpose of inspection, audit, and copying. - (B) Upon issuance of final payment from the State, the Grantee releases the State of all claims against the State arising under this Agreement. Unless otherwise provided in this Agreement or by State law, final payment under this Agreement shall not constitute a waiver of the State's claims against the Grantee.
- (C) The Grantee shall immediately refund to the State any payments in excess of the costs allowed by this Agreement. The grantee acknowledges and agrees to allowing the Department of Treasury, where not prohibited by law, the ability to recoup or otherwise collect any funds that are declined, unspent, or otherwise misused and have not been returned by the grantee within 30 days of request by the State.

Director Phillip Roos Department of Environment, Great Lakes, and Energy **Constitution Hall** West Allegan Street P.O. Box 30473, Lansing, MI, 48909-7973

Dear Directors:

SUBJECT: Legislative Sponsorship of Public Act 121 of 2024 Grant

In accordance with Public Act 121 of 2024, Article 4, Section 1004, I am pleased to sponsor the grant identified below and I certify that this grant is for a public purpose.

The following information summarizes the grant I am sponsoring:

GRANT SUMMARY

Grant Recipient: City of Douglas **Grant Amount:** \$1,300,000.00

Boilerplate Section: Article 4, Sec. 1004(1)(b) **Authorizing Grant**

Boilerplate Language: 1004 (1)(b). From the funds appropriated in part 1 for lead service line

replacement one-time, the department must allocate all of the following: To be awarded as a grant to a city with a population of between 1,300 and 1,400 in a county with a population of between 120,500 and 120,600 according to the most recent federal decennial census for lead service

line replacement, \$1,300,000.00.

Public Purpose: The purpose of the project is for lead service line replacement in the City

of Douglas, Michigan. Service lines are the underground pipes that deliver water from the water main to a home. They are made of various types of materials, including copper, galvanized iron, plastic, and lead. The replacement of lead service lines is imperative because lead can leach into drinking water while it sits in or moves through lead service lines. The city will utilize funds to replace identified lead service lines throughout the community. It is our goal with this funding to expedite

this process so that everyone has access to safe drinking water.
