RE: 13 South Union Street – Drainage Review
City of Douglas – Allegan County

Upon the recommendation of our reviewing engineer, the Allegan County Drain Commissioner (ACDC) hereby grants construction plan approval for the above referenced project as described in the documents submitted by your office dated February 2, 2026 and February 5, 2026, via email.

As a condition of approval, please reference the comments from our reviewing engineer, Ken Bosma, P.E., Prein & Newhof, Inc. in his letter dated February 6, 2026 (copy attached).

ACDC approval of the construction plans are granted with the understanding that the items outlined in number 8) After this project is constructed, the required documentation per ACDC's standards will need to be submitted before final approval is given for this project. This will include engineer's certificate, and record drawings. All review fees have been paid to-date. Lastly, an on-site inspection by ACDC staff at completion will be required to ensure the site drainage was built per our reviewing engineer's approval. A final approval letter from ACDC will follow the above-mentioned site inspection.

If you have any questions, please contact me at (269) 673-0440.

Sincerely,

Chris Machiela
Allegan County Drain Commissioner
