Approval Criteria for Zoning Amendment (Chapter 30 Zoning, Exhibit A, Sec 2.28.1 and 2.28.2)

2.28.2 The Planning & Zoning Commission and the City Council shall consider the following factors:

Factors	Staff Comments
1. whether the proposed change will be appropriate in the immediate area concerned;	<p>The Commission should consider adverse impacts of all allowed uses to the adjacent manufactured homes. However, an increase building setback of 40 feet adjacent to residential uses helps offset this concern.</p> <p>Additionally, commercial uses on this site could provide services within walking distance to nearby residences.</p>
2. their relationship to the general area and the City as a whole;	<p>This property has significant frontage on Ranch Road 12. This major road has a number of commercial use in the immediate vicinity</p>
3. whether the proposed change is in accord with any existing or proposed plans for providing public schools, streets, water supply, sanitary sewers, and other utilities to the area;	<p>The property is not within any existing or proposed City Plans.</p>
4. the amount of undeveloped land currently classified for similar development in the vicinity and elsewhere in the City, and any special circumstances which may make a substantial part of such undeveloped land unavailable for development;	<p>This request would not make other land unavailable for development.</p>
5. the recent rate at which land is being developed in the same zoning classification, particularly in the vicinity of the proposed change;	<p>While there has been limited commercial development in the immediate vicinity, there has been significant growth within the City as a whole.</p>
6. how other areas designated for similar development will be, or are unlikely to be, affected if the proposed amendment is approved;	<p>No areas designated for similar development will be affected by this proposed amendment.</p>
7. whether the proposed change treats the subject parcel of land in a manner which is significantly different from decisions made involving other, similarly situated parcels; and	<p>Approval of this zoning amendment would not be significantly different from decisions made involving other similar parcels.</p>
8. any other factors which will substantially affect the public health, safety, morals, or general welfare.	<p>The rezoning does not negatively affect the public health, safety, morals, or general welfare.</p>
