**Big Sky Ranch** – Dripping Springs, Texas  
August 9, 2018

## **PARKLAND AND OPEN SPACE CALCULATIONS**

### **Property Overview**

Big Sky Ranch is a residential community located northeast of Ranch Road 12 and US 290 within the City of Dripping Springs ETJ. The property is approximately 200 acres and seeking City of Dripping Springs approval for the development of up to 780 residential lots.

The property is characterized as a mix of flat pasture land as well as typical Hill Country with moderate hills and topography. The property is covered with a mix of cedar (Ashe Juniper), live oak and cedar elm hardwoods.

The Big Sky Ranch Parkland and Open Space Plan consists of a combination of private and public parkland and open space. The centerpiece of the private parkland component will be a 3.1 acre Neighborhood Park. The park is centrally located within the community surrounding a hilltop that will remain undeveloped. Program elements to be constructed within the Neighborhood Park by the developer include a pool, pavilion, playscape, unstructured lawn play area and associated parking.

Big Sky Ranch is located immediately east of Founders Memorial Park. With the community's proximity to the park in mind, a community open space system has been designed to offer pedestrian trail corridors from east Dripping Springs to Founders Memorial Park. The community Parkland and Open Space Plan shall provide nearly two miles of roadside and off-road trails. The City of Dripping Springs Parks, Recreation & Open Space Master Plan 2014-2024, Park Needs Implementation Plan identifies "Walking / Hiking / Biking Trails" as the first "High Priorities" listed within the plan. Big Sky Ranch's trails system offering is in alignment with the City of Dripping Springs' high priority and further extends the public trails system to the east.

The public parkland dedication also includes an 8.0 acre tract of land immediately adjacent to Founders Memorial Park. This parcel will open visibility and accessibility to the park from the east and offer expanded unstructured recreational opportunities at Founders Memorial Park.

### **Parkland Calculations**

Following is a summary of parkland requirements and the parkland provided within Big Sky Ranch. The calculations are intended to support the Big Sky Ranch Parkland and Open Space Plan.

#### **I. Parkland Required by City of Dripping Springs' Code of Ordinances**

##### **1. Required**

One (1) acre of parkland per 25 living unit equivalents (LUE's), satisfied by cash or land. Based on the maximum 780 residential units within the Development Agreement, a maximum of 31.2 acres of parkland credit shall be required.

In addition to the required parkland dedication, the Applicant has agreed to dedicate 4.1 acres of additional parkland to help the City of Dripping Springs meet parkland dedication requirements once Founders Memorial Drive is converted to a public right-of-way in accordance with the transportation plan.

In total, the parkland dedication requirement to meet the residential development and Founders Memorial Park right of way dedication is 35.3 acres.

## II. Proposed Parkland Compliance Program

### 1. Public Parks

A total of 26.7 acres is being dedicated to the City as a public park as well as public trails corridors. A tract approximately 8.0 acres in size is located within the southwest portion of the property. Approximately 4.1 acres of the tract is designated as the Parkland swap tract. The remaining 3.9 acres shall incorporate a dry stormwater detention facility constructed to comply with State of Texas design standards.

One often visualizes a detention pond as a hole with concrete side walls surrounded by a chain link fence. Due to the highly visible location of the detention facility, the Applicant will design the detention/water quality facility with natural side slopes than can be navigated by park users. The bottom of the depression will be constructed with a lawn area that may be used by park users for informal sporting events, flying kits or enjoying other lawn focused events.

In addition to the 8.0 acres in the southeast portion of the property, The Parkland and Open Space Plan public open space corridors will include:

- **Roadside Trails**
  - Meandering roadside trails will be constructed with a set of varied width concrete public parkland tracts that traverse the property adjacent to the collector right-of-way. The open space tracts and concrete trails will extend to the east and strengthen the City of Dripping Spring's public trails system.
- **Off-Road Trails**
  - Off-road trails will be constructed in a set of natural open space corridors within the community. Trails may be built using concrete, mulch or other natural materials and will further expand the City of Dripping Spring's public trails system.
  - Trailheads (Including 1 bench, 1 trailhead sign, enhanced landscaping and connections) will be provided at each location where the off-road trails connect with a public right-of-way.

### 2. Private Parks

The Big Sky Ranch Parkland and Open Space Plan includes a 3.1 acre Neighborhood Park. The Neighborhood Park will be privately maintained by the H.O.A. This facility will include:

- Resort style swimming pool
- Restroom/storage building
- Parking Lot: Surface parking lot with curbs
- Unstructured play area
- Children’s playground (school ages 5-12): ADA access children’s playscape with 12” depth engineered mulch playground surface
- Bike Rack: Located convenient to pavilion and parking lot.

3. Private Open Space

Private parkland and open space will be distributed throughout the community. Some portions of the open space will provide stormwater detention and water quality on the property while other portions of the open space will remain undisturbed.

Consistent with the detention facility design described within Section II.1 Public Parks, the Applicant will design and construct these detention facilities in a natural manner. The detention ponds will have natural side slopes as well as earthen embankment structures. Additionally, the facilities will be naturally landscaped to blend into the surrounding natural area areas during plant establishment.

The preservation of open space within the community also addresses The City of Dripping Springs Parks, Recreation & Open Space Master Plan 2014-2024, Park Needs Implementation Plan Section High Priorities “Natural Areas and Open Space” goal.

III. **Parkland Calculation Summary**

Parkland Dedication Requirements: Based on parkland calculations required by the City of Dripping Springs Code, Big Sky Ranch is required to provide 31.2 acres of total parkland.

Proposed Parkland Credit: As shown in the Parkland Open Space Plan, a total of 46.7 acres of parkland and open space shall be provided in association with the development of Big Sky Ranch, providing 36.7 acres of City parkland credits. This provides a surplus of 5.5 acres of public parkland credit.

Founders Park Roadway Dedication: Additionally, the proposed public right-of-way through Founder's Park is approximately 4.1 acres of parkland. As a result, additional parkland is required to offset this parkland area impact. Big Sky Ranch will dedicate an additional 4.1 acres of parkland (in addition to the 44.8 acres noted above) to account for this right-of-way requirement. In total Big Sky Ranch will be dedicating 48.9 acres of parkland for both private use as well as public parkland dedication.

#### IV. Maintenance

The Parkland and Open Space Plan for Big Sky Ranch includes private parks, private and public trails and natural open spaces. All parkland and open space areas will be maintained by the community's Homeowner Association (H.O.A.) The public open space areas will be maintained by the H.O.A. through an access easement overlay (to be coordinated with the City). The H.O.A. will maintain this public trail and park to conform with the maintenance level of the community. The H.O.A. will be established prior to selling homes and will be funded through a community fee. This fee will be used to maintain parks, open space trails, entry feature monuments and public areas within H.O.A. access easements.

#### V. Phasing

Big Sky Ranch will be a phased residential community. Following is a summary of anticipated dedication (as applicable) and construction of parkland:

- The park in the southwest portion of the property will be improved and dedicated to the City of Dripping Springs with the construction and acceptance of Phase 1 of Big Sky Ranch.
- Roadside concrete public trails will be constructed with construction of the associated roadway.
- Off-road trails corridors will be dedicated to the City within six months of City acceptance of the associated residential area. The construction of the trail within each tract shall be complete prior to dedication of the tract.
- The improved private neighborhood park will begin construction in Phase 2 of the development.
- Remaining private park and open space tracts will be developed with development of the associated residential area.

Revision approved with Tract 2, as recommended by the Parks & Recreation Commission on May 4, 2020, and approved by City Council on May 12, 2020.

 April 28, 2020

**PARKLAND AND OPEN SPACE CALCULATION UPDATES**

In 2018, the Big Sky Parkland Plan was submitted and approved by the City of Dripping Springs with an excess of 8.6 acres of dedicated parkland credit. In 2020, an additional 13 acres was added to the Big Sky Ranch master plan. This additional land is providing an additional 38 dwelling units. Per the parkland dedication requirements, the total parkland required for this 13 acre addition is 1.5 acres.

The total amount of dedicated private and public parkland in the new section combined totals 3.9 acres, which equates to a total credit of 2.6 acres. Although there exists an excess of 8.6 acres of parkland from the original Parkland Agreement, the new 13 acre tract is providing enough credit to offset its own parkland requirement and add an additional 1.1 acres to the remaining credit acres. Thus, the community of Big Sky Ranch now is providing an updated delta of 9.7 acres of parkland in excess to what is required per City regulations.
