PRELIMINARY PLAT INFORMATION REQUIREMENTS			
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	A vicinity, or location, map that shows the location of the proposed Preliminary Plat within the City (or within its ETJ) and in relationship to existing roadways.
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Boundary lines, abstract/survey lines, corporate and other jurisdictional boundaries, existing or proposed highways and streets (including right-of-way widths), bearings and distances sufficient to locate the exact area proposed for the subdivision, and all survey monuments including any required concrete monuments (per the City Engineer); the length and bearing of all straight lines, radii, arc lengths, tangent lengths and central angles of all curves shall be indicated along the lines of each lot or Unit (curve and line data may be placed in a table format); accurate reference ties via courses and distances to at least one recognized abstract or survey corner or existing subdivision corner shall be shown.
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	The name, location and recording information of all adjacent subdivisions (or property owners of adjacent unplatted property), including those located on the other sides of roads or creeks, shall be drawn to the same scale and shown in dotted lines adjacent to the tract proposed for subdivision in sufficient detail to show accurately the existing streets, alleys, building setbacks, lot and block numbering, easements, and other features that may influence the layout of development of the proposed subdivision; adjacent unplatted land shall show property lines, the names of owners of record, and the recording information.
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	The location, widths and names of all streets, alleys and easements (it shall be the applicant's responsibility to coordinate with appropriate utility entities for placement of necessary utility easements and for location of all streets and median openings on highways or arterial roadways), existing or proposed, within the subdivision limits and adjacent to the subdivision; a list of proposed street names shall be submitted (in the form of a letter or memo along with

		the application form) for all new street names (street name approval is required at the time the Preliminary Plat is approved)
<input type="checkbox"/>	<input checked="" type="checkbox"/>	The location of all existing property lines, existing lot and block numbers and date recorded, easements of record (with recording information), buildings, existing sewer or water mains (can be shown on a separate sheet, if preferred), gas mains or other underground structures, or other existing features within the area proposed for subdivision;
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Proposed arrangement and square footage of lots or Units (including lot and block numbers or Unit numbers) proposed use of same; for nonresidential uses, the location and size of buildings, existing and proposed. This information shall be provided on a separate sheet, such as on a concept plan or the final site plan.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	All sheets shall have a title block which shows the title or name under which the proposed subdivision is to be recorded; the name, address and phone number of the property owner(s); the name, address and phone number of the licensed engineer or registered professional land surveyor who prepared the plat/plans; the scale of the plat/plans; the date the plat/plan was prepared; and the location of the property according to the abstract or survey records of Hays County, Texas.
<input type="checkbox"/>	<input type="checkbox"/> N/A	Sites, if any, to be reserved or dedicated for parks, schools, playgrounds, other public uses or for private facilities or amenities
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Scale (including a graphic scale), date, north arrow oriented to the top or left side of the sheet, and other pertinent informational data
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Contours with intervals of two feet (2') or less shown for the area, with all elevations on the contour map referenced to sea level datum; and the limits of any portion of the 100-year floodplain (pursuant to the flood study, if required by the City Engineer) that may be within or adjacent to (i.e., within 100 feet of) the property (final monumentation of the floodplain shall occur, and shall be shown, on the final plat prior to approval and filing at the County) - if no floodplain is present, then a note stating this shall be shown on the plat
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Areas contributing drainage to the proposed subdivision shall be shown in the drainage study and construction plans; locations proposed for drainage discharge from the site shall be shown by directional arrows.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	All physical features of the property to be subdivided shall be shown, including: - The location and size of all watercourses; and - 100-year floodplain according to Federal Emergency Management Agency

		<p>(FEMA) information; and</p> <ul style="list-style-type: none"> - Water Quality Buffer Zones as required by [WQO 22.05.017] - Drainage ways and drainage easements. Drainage easements are required for bypass of any offsite flows and for concentrated flows conveyed across lots. Drainage easements shall be large enough to contain the 100-yr storm [Sub. Ord. 12.2.2]. - U.S. Army Corps of Engineers flowage easement requirements; and - All critical environmental features (CEFs) such as karsts, springs, sinkholes, caves, etc., to be located and documentation to be signed and certified by a geologist. All CEF to have a minimum setback of 150'. All designated wetlands to be certified as such by an accredited wetland biologist relying the presence of wetlands plant species. Applicant to include a slope map identifying the breakdown of all lands in categories from 0% to 15 slope, 15 to 30 slope, and over 30% slope; and - Ravines; and - Bridges; and - Culverts; and - Existing structures; and - Drainage area in acres or area draining into subdivisions (to be included in drainage study and construction plans); and - Outline of major wooded areas or the location of major or important individual trees (excluding Cedar Trees) with trunk diameters exceeding twelve inches (12") measured four feet (4') above the ground, and other features pertinent to subdivision; is defined in the City's Technical Construction Standards and Specifications, and the City's Landscape Ordinance.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Provide notes identifying the following:</p> <ul style="list-style-type: none"> • Owner responsible for operation and maintenance of stormwater facilities. • Owner/operator of water and wastewater utilities. • Owner/operator of roadway facilities
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Schematic Engineering plans of water and sewer lines and other infrastructure</p>

		(including sizes) to be constructed in the subdivision; the proposed connections to distribution mains shall be indicated
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Proposed phasing of the development: Where a subdivision is proposed to occur in phases, the applicant, in conjunction with submission of the Preliminary Plat, shall provide a schedule of development, the dedication of rights-of-way for streets and street improvements, whether on-site or off-site, intended to serve each proposed phase of the subdivision. The City Engineer shall determine whether the proposed streets and street improvements are adequate pursuant to standards herein established, and may require that a traffic impact analysis be submitted for the entire project or for such phases as the City Engineer determines to be necessary to adjudge whether the subdivision will be served by adequate streets and thoroughfares.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	All Preliminary Plats shall be submitted in a legible format that complies with Hays County requirements for the filing of plats.
<input type="checkbox"/>	<input type="checkbox"/> N/A	Existing zoning of the subject property and all adjacent properties if within the city limits.
<input type="checkbox"/>	<input checked="" type="checkbox"/>	Construction Traffic Plan showing proposed routes for construction vehicle traffic and points of ingress and egress of such vehicles during construction; temporary construction easement approvals if needed, this shall be sealed by a registered engineer
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>Certificates and other language shall be included on the plat, pursuant to the following Subsections: A statement signed by the property owner(s) and acknowledged before a Notary Public that the subdivided area is legally owned by the applicant.</p> <ul style="list-style-type: none"> - A statement signed by the property owner(s) and acknowledged before a Notary Public that the subdivided area is legally owned by the applicant. - An accurate legal, such as by metes and bounds, description by bearings and distances (including necessary curve and line data), accurate to the nearest one hundredth of a foot, for all boundary, block and lot lines, with descriptions correlated to a permanent survey monument. - The registered professional land surveyor's certificate, with a place for his or her signature and notarization of his or her signature. - A place for plat approval signature of the Chair or Vice Chair, in the Chair's absence) of the Planning and Zoning Commission, a place for the City Secretary to attest such signature, and the approval dates by Planning and Zoning Commission. - Appendices to this Chapter contain certificates and languages to be used on the plat to accommodate the above requirements:
<input type="checkbox"/>	<input checked="" type="checkbox"/>	If any amount of surface water is to be used by the subject property, the

		Applicant must provide documentation to the City establishing that the Applicant has notified the following entities of the Applicant’s plans for the project: Lower Colorado River Authority (LCRA), and the United States Fish and Wildlife Service (USFWS).
--	--	--

NARRATIVE OF COMPLIANCE

A written narrative describing how all portions of the subdivision meets all requirements of this code and other codes, including landscaping, lighting, parkland dedication, site development, water quality protection, and zoning, as may be relevant.

Outdoor Lighting, Article 24.06	The project intends to comply with the Lighting Ordinance though it is not technically required. This will be detailed in the Site Development phase.
Parkland Dedication, Article 28.03	The project is located in the ETJ of Dripping Springs and intends to comply with Parkland dedication if required.
Landscaping and Tree Preservation, Article 28.06	The project is located in the ETJ of Dripping Springs, so landscape plans and tree preservation are not formally required. However, landscaping will be proposed on-site with the Site Development phase.

<p>Subdivision, 28.02, Exhibit A</p>	<p>This section shall also include, depending on what type of plat is being filed, how public or private improvements will meet City standards, including water quality, drainage, stormwater, and fire (if applicable).</p> <p>Public improvements will include a driveway coordinated with TxDOT to connect to US-290 and a public waterline extension with West Travis County PUA. Both improvements intend to meet City, County, and TxDOT requirements as applicable.</p> <p>Private improvements will include a stacked detention and water quality pond (CZP required with TCEQ), an underground storm drain system that will collect runoff from the site and route to the pond, and private fire lanes/waterlines/hydrants to be coordinated with Hays County Fire.</p>
<p>Zoning, Article 30.02, Exhibit A</p>	<p>The project is located in the ETJ of Dripping Springs so no zoning is applicable. The project will respect the required building setbacks of 10' front setback and 5' for rear and side setbacks.</p>
