Summary/Background:	The Dripping Springs Parks and Community Services Department is proud to announce a unique viewing opportunity of Texas' first wildlife movie *Deep in the Heart*! Thanks to a partnership between Dreamland, Texas Recreation and Parks Society, and Fin & Fur Films, you have the chance to see a visually stunning celebration of Texas' diverse landscapes and remarkable wildlife found nowhere else on October 7th, 7 PM, at Dreamland Dripping Springs. Deep in the Heart is a visually stunning celebration of what makes Texas unique — its diverse landscapes and remarkable wildlife behavior that cannot be found anywhere else in the world. Told through the eyes of wildlife species ranging from the mysterious blind catfish to the elusive mountain lion, the story follows our ever-changing relationship with the natural world and showcases our ability to destroy, conserve, and recover wildlife and the habitat we mutually depend on. Narrated by Matthew McConaughey and featuring state-of-the-art cinematography, this family-friendly film journeys from the highest peaks in West Texas, through our aquifers, rivers, and bays, and deep into the Gulf of Mexico. Deep in the Heart aims to conserve our remaining wild places, to show the connectivity of water and wildlife, and to recognize Texas' conservation importance on a continental scale.
