TERMS AND CONDITIONS

If paying by check or Zelle, please contact your salesperson to accept the quote. A 50% deposit is required to schedule any work. If paying by credit or debit card a 3% fee will be applied to your contract upon completion. Please note that this fee does not apply to payment by Zelle or check. The Zelle QR code is at the bottom of the proposal. If you'd like to pay by check, please mail a check to Gutter Tex, 110 Meyers Rd. Buda, TX 78610. Upon receipt of deposit we will schedule your project.

On the day your project is completed your card on file will be charged the remainder. If we have anything minor that needs to be completed for any reason on a separate day we will hold back 10% until your job is 100% completed. We will put a yard sign in the yard.

Our goal is to have your contract exactly how you want it when you sign. Most changes are not a problem with enough notice. Unfortunately, with the labor and materials market currently, any changes within 15 days of your scheduled start date takes more time to coordinate. If you are within the 15 days of your scheduled start date we do have to charge any fees listed below.

Cancellation: There will be a \$100 cancellation fee charged for any project that is canceled less than 15 days or rescheduled within 2 business day from the scheduled start date.

Change Order: There will be a \$100 change order fee charged for any project that is changed less than 15 days from the scheduled start date.

Restocking Fee: There will be a restocking fee of 5% of contract (in addition to the \$100 cancellation fee) for any project that is canceled less than 15 days from the scheduled start date that has any materials needed. This excludes cleanings only that don't require materials to be staged.

Removal of Lights: Please remove any holiday or cafe lights, cameras, or sensors prior to installation. Anything removed by Gutter Tex will be left on the porch; Gutter Tex is not responsible for any broken items.

*SOFT WASHING - All of our services are guaranteed to be carried out with professionalism and quality. However, there may be unforeseen factors and ones outside of our control such as extra ladder work, heavy soiling, mineral deposits, fragile landscaping, previously damaged or worn out screens or gutters, unsafe access, or anything else that we are unable to factor into this estimate, which might affect the price or our ability to complete the job and will have to be taken into account, if need be, at the time of service. We will let you know with as much advance notice as possible of any such occurrence.

Please make sure all windows and doors are closed prior to beginning any soft washing. Gutter Tex is not responsible for water getting inside the house due to old/broken seals on windows or doors or any other opening. We recommend placing a towel at the threshold of any door prior to service. Gutter Tex uses an additive to help minimize spots on your windows, but this service does not include window cleaning and you may need to have your windows cleaned following the service. Gutter Tex will do our best to take precautions not to damage any plants, landscaping, or flower beds during the service. However, we cannot be responsible for any damage during the service.

**PAINTING WARRANTY - Gutter Tex warrants against peeling and blistering due to defective workmanship for 2 years. This warranty is not transferable.

In order to qualify for the warranty, the customer must:

Pay in full at the time of job completion or as otherwise arranged. Retain the original contract. If these conditions are met, Gutter Tex will perform repairs with no labor charge. Gutter Tex will perform repairs only for the original customer. The warranty is not transferable.

Areas Covered by Our Warranty:

Peeling or blistering, Work provided within the original estimate sheet Areas Not Covered by Our Warranty:

Any horizontal surface, Paint supplied by customer, Galvanized metal, Bleeding knots, Moisture damage or rust, Exterior varnished surfaces, Peeling of previous paint layers, Nail or screw pops, Cracks due to a shifting building, Paint costs

Matching of the paints — the paint can be matched closely, but rarely perfectly

Mildew — caused by moisture accumulation Rotten wood, rust, or disintegrating metals
