SD2019-0062**

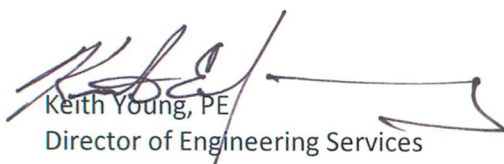

Aaron:

On this day, I, the undersigned professional engineer of record, made a final visual observation of the above referenced project. I have also visited the site during construction, and observed that the grading, street, water, wastewater, and drainage improvements were constructed in general conformance with the City-approved plans, and documented field modifications, with insignificant deviation.

We trust that you will find this information helpful when considering final approvals for this project. If you should have any questions, or need additional information regarding Big Sky Ranch, please let us know.

Sincerely,
