

CITY OF DRIPPING SPRINGS

ORDINANCE 2022-

AN ORDINANCE OF THE CITY OF DRIPPING SPRINGS, TEXAS, (“CITY”) EXTENDING A TEMPORARY MORATORIUM ON THE ACCEPTANCE, AUTHORIZATION, AND APPROVALS NECESSARY FOR THE SUBDIVISION, SITE PLANNING, DEVELOPMENT, AND CONSTRUCTION IN THE CITY LIMITS AND EXTRATERRITORIAL JURISDICTION, PROVIDING FOR FINDINGS OF FACT, DEFINITIONS, APPLICABILITY, PURPOSE, ENACTMENT, DURATION, EXTENSION, EXCEPTIONS AND EXEMPTIONS, DETERMINATION AND APPEALS, REPEALER, SEVERABILITY, ENFORCEMENT, EFFECTIVE DATE, AND PROPER NOTICE AND MEETING.

WHEREAS, the City Council of the City of Dripping Springs (“City Council”) as a duly-elected legislative body, finds that it is facing significant historic and contemporary land use challenges that existing regulations were not designed to address; and

WHEREAS, the City Council finds that it is in the best interest of the City and its citizens to extend the enacted moratorium in order to continue to temporarily suspend the acceptance, authorization, and approvals necessary for the subdivision, site planning, development, zoning, and construction on real property in the City limits and extraterritorial jurisdiction; and

WHEREAS, the City has developed a Comprehensive Plan for development within the City and desires to protect its ability to regulate development within its jurisdiction; and

WHEREAS, the City has started the process of revisiting the Comprehensive Plan and studying land use and development in the City limits and extraterritorial jurisdiction, and is in negotiation with a professional land planning firm to provide comprehensive plan and development code services; and

WHEREAS, Texas Local Government Code Section 51.001 provides the City general authority to adopt an Ordinance or police regulations that is for the good government, peace or order of the City and is necessary or proper for carrying out a power granted by law to the City; and

WHEREAS, Texas Local Government Code Chapters 211, 213, 214, and 217 grant the City certain regulation authority concerning construction, land use, nuisances, structures and development-related activities; and

WHEREAS, the City seeks to ensure that impending and future development is conducted in a fiscally-sustainable and environmentally responsible manner; and

WHEREAS, the City Limits and Extraterritorial Jurisdiction (ETJ) are comprised of a combination of topographical, ecological, and drainage features that create significant development challenges; and

WHEREAS, the City will change drastically if continued growth and development should occur under the City's existing Code of Ordinances and Comprehensive Plan, which no longer adequately address concerns about the effect of responsible development in the City and ETJ; and

WHEREAS, as codified in Tex. Water Code § 26.081(a), the Legislature of the State of Texas found and declared that it is necessary to the health, safety, and welfare of the people of this state to implement the state policy to encourage and promote the development and use of regional and area-wide waste collection, treatment, and disposal systems to serve the waste disposal needs of the citizens of the state and to prevent pollution and maintain and enhance the quality of the water in the state; and

WHEREAS, the City agrees with the Legislature of the State of Texas that it is necessary to the health, safety, and welfare of the people in the City limits and the ETJ to encourage and promote the development and use of regional and area-wide waste collection, treatment, and disposal systems to serve the waste disposal needs of the citizens in the City limits and the ETJ to prevent pollution and maintain and enhance the quality of the water in the City limits and the Extraterritorial Jurisdiction; and

WHEREAS, the City conducted an updated analysis to determine the adequacy of the City's current regional wastewater facilities and the need beyond the estimated capacity that is expected to result from new property development; and

WHEREAS, upon review of the updated analysis by the City's Wastewater Engineer and Deputy City Administrator, the City Council has made updated findings contained herein as **Attachment "B"** related to the inadequacy of existing essential public facilities in accordance with Section 212.135 of the Texas Local Government Code; and

WHEREAS, the City Council finds that certain essential public and private infrastructure, being wastewater facilities and improvements and transportation facilities and improvements throughout the City Limits and ETJ, are inadequate and insufficient to adequately serve new development; and

WHEREAS, relying on the analysis provided by City Staff, the outstanding permits issued by the City prior to this moratorium, and the City's impact fee analysis, the City Council makes the following findings:

1. Taking into account all wastewater that has been committed by contract, the City's wastewater facilities are at capacity; and
2. The current wastewater collection system has bottlenecks that threaten the proper operation of the City's regional wastewater system; and
3. Based on these bottlenecks and the contractual commitments that will utilize all additional capacity of the City's regional wastewater plant, there is currently no additional capacity available to commit to development of lots; and
4. This moratorium is reasonably limited to property located in the City limits and the ETJ; and
5. The City is actively updating its Development Code and is in negotiation with a planning firm to update its Comprehensive Plan and Development Code.

WHEREAS, the City continues to take actions to increase wastewater capacity, but until actions can be finalized to increase the wastewater capacity of the City of Dripping Springs, allowing for additional wastewater service connections to the Dripping Springs Wastewater Treatment Plant(s) service area will only exacerbate the situation; and

WHEREAS, the City Council finds that a temporary moratorium on the acceptance, authorization, and approvals necessary for the subdivision, site planning, development, and construction in the City Limits and ETJ will prevent the situation from becoming worse, and will allow the City time to address the measures needed to remedy the shortage of capacity and to secure funds to pay for such remedial measures; and

WHEREAS, additional evaluation of the existing infrastructure and development are needed to allow for growth and development within the City Limits and ETJ while protecting the health, safety, environment, quality of life, and general welfare of its residents; and

WHEREAS, the City desires to study and evaluate the impact of further development; the need for additional wastewater facilities; appropriate zoning districts and district regulations; appropriate land use and wastewater regulations; and issues that will affect future growth and development of the area within its jurisdiction; and

WHEREAS, the City finds this evaluation process will require community input and will take a reasonable amount of time to complete; and

WHEREAS, the City has determined that it is necessary to continue to study and update its development ordinances and procedures in order to clarify and improve its planning policies based on the forthcoming regulations, strengthen the connection between the City's Code of Ordinances and the goals and needs of the City's residents, and to protect the health, safety, environment, quality of life, and general welfare of its residents; and

WHEREAS, in order for the City to have adequate and reasonable time to review, evaluate, and
City of Dripping Springs Temporary Moratorium-Extension
Ordinance No. XXX

revise the City's development ordinances, and to consider the impact of the ordinances upon future growth, public health and safety, development, the natural environment, and place of architectural, and ecological importance and significance within the City Limits and ETJ, the City wishes to maintain the *status quo* by implementing a temporary moratorium, during which certain applications for development permits and/or approvals will be suspended; and

WHEREAS, the purpose of prohibiting certain applications for development permits and/or approvals during this study period includes, within limitation, preserving the *status quo* during the planning process, eliminating incentives for hurried applications, facilitating thoughtful and consistent planning, avoiding exploitation of the delays inherent in the municipal legislative process, and preventing applications from undermining the effectiveness of the revised rules by applying for permits and/or approvals in order to avoid the application of new, possibly more restrictive, development regulations; and

WHEREAS, in recognition of the importance of development permits and/or approvals to the community, the City desires to implement this moratorium for a stated and fixed time period, and to include a waiver provision in accordance with Local Government Code Chapter 212, Subchapter E; and

WHEREAS, all notices and hearings, including a hearing by the Planning & Zoning Commission and by the City Council, were published and held in accordance with applicable statutes, laws, and regulations and a temporary moratorium was adopted for 90 days; and

WHEREAS, the notice for the possible extension of the temporary moratorium has been published in the newspaper for a public at City Council; and

WHEREAS, based on the updated findings contained herein, information provided by City staff, and the evidence submitted at the public hearing, the City Council has determined that existing development ordinances and regulations and other applicable laws are inadequate to prevent existing essential public facilities from exceeding capacity, thereby being detrimental to the public health, safety, and welfare of the residents of Dripping Springs; and
