

## **Sewer Jetting/Cleaning Notice:**

*The City of Dyersville will be jetting/cleaning sanitary sewer lines in the Northwest, Northeast and Southeast (north of 2<sup>nd</sup> Avenue SE) areas during the last week of September and the month of October.*

*During the jetting process, you may have some bubbling or splashing in your toilets or floor drains. We suggest keeping toilet lids down and drains covered to prevent water from splashing out.*

*If you notice an unusual odor after the cleaning of your line, pour water into your floor drains.*

***There is no street-by-street schedule, so please take the above precautions between the last week of September and during the month of October.***

*If you have any questions, please contact City Hall at 563-875-7724. Thank you!*
