

WELCOME TO ALL FAMILIES!

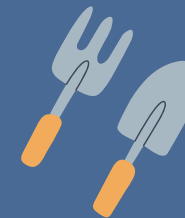

Join us for a summer program focused on empowering kids and families on how to garden. Harvest food at the community garden throughout the summer and enjoy fun interactive classes too - We will learn about conservation, and the environment, and wildlife! Kids will take home their own personal gardening tools, as well as many projects like bird boxes, magnifying glasses, dirt cups, and so much more! We will have professional instructors and community volunteers assisting in teaching and providing guidance to help participants truly understand the art of gardening - instilling fundamental skills you can take with you in years to come.
