Hello,

I oppose any increase rates on water, sewer rates. My residence, a family of 5, already pays upwards of \$200 a month. That's too high and other citizens I know are not happy with their water, sewer bill. Rates actually need to be lowered! Adding more to the rising utility and insurance rates families are enduring is unfortunate. I look forward to reviewing the report that hopefully details the debt service and other rising cost that our hard earned money is covering.

Thanks for your time and service!

Mark Simon
