Does your organization love 9 Square and want to make it a permanent part of your facility? We have the solution! This product is a permanent structure for 9 Square in the Air. It is manufactured in the USA by a world leader in playground equipment using high-quality, professional playground components. The structure comes with powder-coated steel tubing, powder-coated aluminum connectors, installation instructions, an instructional sign, and a manufacturer's limited 15-year warranty. The game height is 7'2" and the pipe diameter is 1.9 inches.
