Subject: Dyersville Veterans Banner Project

**** This Message originated from outside [External Email] Be Very Aware Links and Attachments. ****

Mayor Jacque and Mick,

Want to send a note of appreciation and thanks your way. The Dyersville Veteran's Banner Project has been extremely well received by the community. I have heard from numerous people, how happy they are with the installation of the banners, and how nice it looks for the City of Dyersville.

Many thanks go out to Terry and Tanner for all the work they have done to get these banners up so quickly. Hard to believe we started the project back in June ~ within two weeks we have max'd out our allotment of 78 Lamp Post and now have over 14 on the waitlist for 2028 (that number will only grow now that the banners are up). Our goal was to have the banners up by Veteran's Day, and with the city's help we will have achieved that goal.

The American Legion Post #137 is honored to have worked with the City on this project and can't thank Mick and his staff enough for their support. The city's unwavering support of veterans goes a long way to showcase why Dyersville is such a great place to Live, Work and Play!!

Thank you again for the City of Dyersville's support of this project.

At Your Service,

John Gallagher
American Legion Post #137
