Subject: library budget

City council members,

Although I live outside the city limits, I do pay taxes at the commercial rate within the city limits.

I support the budget presented by the library. As a member of the library finance committee, we did our best to budget what is needed to maintain a widely needed service. The library has a strong history of no inflation in the budget. We are not asking for more than what we need.

I know the legislature is making your work very difficult. Please remember the vast citizenry who use the library.

Respectfully,
Mary Radloff
