### Site Layout

Use this checklist to provide a general site plan, drawn to scale with dimensions, as a part of all zoning applications required for site plan review, planned unit developments, and sign permits. The site plan is required to show the following, however, the City may waive items for inclusion after a pre-application meeting:

- \_\_\_\_\_ The date, scale, north point, title, name of owner and name of the person preparing the plan.
- \_\_\_\_\_ The location and dimensions of boundary lines, easements, and setbacks of all existing and proposed buildings and parking areas from the boundary lines.
- \_\_\_\_\_ The location, size, height, and use of proposed and existing structures on the site.
- \_\_\_\_\_ The location of major site features, including drainage systems with existing and proposed contour lines to display proposed grading, but in no case greater than at 5-foot intervals, and 2-foot intervals for PUD applications.
- \_\_\_\_\_ The location of all proposed site improvements, including parking and loading areas, pedestrian and vehicular access, sewers, sidewalks, utilities, service areas, fencing, screening, landscaping, and lighting.
- \_\_\_\_\_ Landscape concept plan showing location and type of existing trees over 6 inches in diameter and proposed plantings, berms, bufferyards, screening, fencing, and lighting schemes.
- \_\_\_\_\_ For a sign permit include the location of the sign, schematic design, dimensions, and total sign area.
- \_\_\_\_\_ Any other information that may be required for review by the Administrator, or his/her designee, such as stormwater management plans, utility plans, landscaping plans, architectural elevations, and off-site improvements.
