

TOWN OF EAGAR

REGULAR COUNCIL MEETING

APRIL 02, 2024 at 6:00 PM

COUNCIL CHAMBER, 22 WEST 2ND STREET

STAFF COMMUNICATION

DEPARTMENT: Community Development

PRESENTATION: Vendor approval for water meters and installation

AGENDA ITEM: 8D

BUDGET IMPACT: 1,717,107.56 – WIFA grant funds

HISTORY: The Town of Eagar was awarded WIFA funds for updating the current metering system. An RFP was created for this project and several were received with only two bids being complete and reasonable. Dana Kepner with Sensus meters and Fortiline with Kamstrup. After several weeks of researching and verifying each of these proposals, staff has determined that Fortiline offers the most complete package with a total cost of the project that is within the grant funds and required match.

ATTACHMENTS: Fortiline proposal, Dana Kepner proposal, and metering services Inc. proposal for installation as Dana Kepners' proposal had not included the installation of the meters.

STAFF RECOMMENDATION: Staff recommends council approve Fortiline Waterworks as the vendor for water meters and water meter installation.
