Inadequate provision for ventilation, light, air, sanitation, or open spaces.

Blighted Area means an area in which there are a substantial number of deteriorated, or deteriorating structures, in which conditions, as indicated by government-maintained statistics or other studies, are leading to economic distress or endanger life or property, and in which two or more of the following factors are present: Unsanitary or unsafe conditions and deterioration of site or other improvements.

This item was previously discussed on April 20, 2023 and is being brought back for further discussion.
