We performed our readings and daily residual checks at the sewer and water plant. We conducted meter readings and cut-offs.

Several projects have been completed based on the work orders created by the office staff. We have been pumping sludge into dewatering containers and have pulled pumps at the sewer plant due to trash buildup, as well as cleaned lift stations.

We patched several holes around town and addressed water leaks on Petty Street, Highway 87, Alan Street, King Street, Blanchard Street, and Paint Rock Street. Additionally, we received numerous animal control calls.

We are currently working on a tap installation on Green and Moss Streets for Theresa Knight. We have fixed several leaks on the golf course and replaced a couple of valves.

We've opened the watering station for people to get water, and we have been conducting numerous line locates. At the water plant, we are changing several filters and cleaning strainers.

We are also cleaning city property on Duke and Baygent Streets. A sewer backed up on Main Street, and we located two manholes on Kelly Street, which are about 16 inches below the asphalt. Finally, we replaced several meters that were not functioning properly.

Council Member Gandy thanked them for all their hard work fixing the water leaks during the freeze. Council Member Garcia suggested that they need more lighting when they are working water leaks in the dark. All the boil water notices are clear now and have been posted on the website.
