We monitor daily readings and residuals at the sewer and water plant, handle meter readings and cut-offs, and carry out projects from office work orders.

We have been pumping sludge into dewatering containers and pulled pumps at the sewer plant due to trash and cleaned lift stations. We have patched several holes around town and fixed a water leak on Bagent and East Broadway. We have responded to numerous animal control calls. We completed two water taps and three sewer taps, rebuilt the swimming pool deck, and conducted line locates.

We removed large stumps near the rodeo arena and assisted the prison in moving rocks from inside the prison. Several malfunctioning meters were replaced, and we began mowing bardiches and city properties. We pumped down the swimming pool, painted it and both restrooms, and installed a 6-inch valve at the prison. We pumped down chlorine chamber and removed large trees from the fence line at the sewer plant.

Council Member Gandy asked if the prison had replaced the screens that they were supposed to. Priscilla responded that they were awaiting the completion of the USDA project and will meet with them to discuss further.

Council Member Garcia asked why the prison needed help moving rocks. David stated that the rocks were very large and the city had the equipment to assist them. They had also donated a generator to the city. Council Member Garcia then questioned if the removal of the trees from the fence line at the sewer plant was in the bid. Mayor Rodgers began by speaking of a few details she felt were relevant to this discussion.

- 1) Our city administrator learned of the changes coming in HB-2844 during her Texas Municipal Clerks Association Legislative Update conference on Aug 21-22, 2025. Upon her return from the conference, she contacted our city attorney for guidance of the upcoming changes and began contacting surrounding cities to begin determining whether our ordinance, which has been in effect since October, 10, 2018, would need to be amended or abolished all together.
- 2) Final interpretation of HB2844 are due to be put out next month, therefore, at the present time council has determined to leave our ordinance as is until these regulations are received.
- 3) The deadline to make these decisions and have our ordinance in compliance is June 30th, therefore our current ordinance is in place until then.
- 4) As a side note, myself nor city staff can change these ordinances that is the job of Council.
- 5) Our city staff arranged for the current food trucks that come due to the lack of evening meal choices.
- 6) City staff does not respond to posts on social media but can be reached by phone or in person to address your concerns. Also the sheriff's office has the contact information to the on-call city staff person for emergency situations after office hours. We suggest if you are unsure whether there is an ordinance in place concerning any change made to your property, you look online or contact the city office.

Paul and Shelbie Pearson passed out a flyer with their recommendations for the ordinance concerning the traveling food trucks. Some of the food trucks that have come have asked if there is a daily permit fee. Their suggestion for fees is: \$25 per day, \$75 per month and \$200 per year.
