In the event that EagleView seeks legal recourse for the collection of any unpaid Fees from Customer, Customer shall be responsible for all of EagleView's costs of such collection action if EagleView is the prevailing party. If any Fees are overdue by more than thirty (30) days, EagleView may, without limiting its other rights and remedies, suspend the Product(s) and/or Service(s) until such amounts are paid in full, provided that, EagleView will give Customer at least ten (10) days' prior notice that its account is overdue.

Customer is responsible for paying all Taxes associated with its purchases hereunder. For clarity, EagleView is solely responsible for taxes assessable against it based on its income, property, and employees.

4. TERM AND TERMINATION

4.1. Term. The term of this Agreement will commence on the date Customer signs an Order Form under this Agreement and will end upon the expiration date of the Order Form, or upon the expiration date of any subsequent or renewal Order Form(s) ("Term"). EagleView may suspend the Product(s) and/or Service(s) in the event Customer is in material breach of this Agreement and such breach has not been cured within thirty (30) days' written notice to Customer. In the event of suspension due to Customer's material breach of this Agreement, Customer will remain liable for all Fees applicable to the Term that would have been paid had the Product(s) and/or Service(s) not been suspended.

4.3. Effect of Termination on Fees: EagleView Breach. - 2.2 At least annually, EagleView will conduct an assessment of the information technology and information security controls for all facilities used in complying with its obligations under this Exhibit, will prepare a Controls Report that includes the results of such assessment, and, upon request, will provide a current Controls Report to Customer.
- 2.3 If EagleView learns of any Critical Issues, EagleView will use all reasonable efforts to remediate such Critical Issues promptly.

3. Data Security. EagleView will:

- 3.1 Upon request, provide to Customer a report identifying where Customer Confidential Information is processed and stored, and how access is controlled. For any material changes in data center hosting, including, without limitation, outsourcing of data center hosting, such report will be accompanied by the most recent Controls Report for such data center. Any new or newly configured data center will be at least as secure as it was prior to the changes and, if requested by Customer, EagleView will cooperate with Customer to perform a security assessment of such changes.
- 3.2 Not allow Customer Confidential Information to be disclosed, accessed, processed, or stored outside the United States, its territories, and possessions ("U.S.") without Customer's prior written consent, and will cooperate with Customer's security assessment of such non-U.S. based activities. EagleView will be responsible for any such non-U.S. based activities and will ensure that such non-U.S. based activities are in compliance with applicable law and this Agreement, including, without limitation, all security requirements.

- 3.3 When transmitting and storing Customer Highly Sensitive Information as defined in Sections 1.3 (a) and (b), encrypt such information using persistent encryption that is applied to such Highly Sensitive Information and maintains its protection throughout the lifecycle of such Highly Sensitive Information. Use encryption keys unique to Customer and use encryption and key management techniques that comply with security industry standards published by the National Institute of Standards and Technology (“NIST”).

- 3.6 Remove all Customer Confidential Information from any media taken out of service and destroy or securely erase such media to make it unreadable, undecipherable, and unrecoverable by any means consistent with data destruction practices recommended by NIST.
- 3.7 Conduct a security risk assessment based upon an industry standard security framework of all EagleView’s Subcontractors. Ensure Subcontractors have and follow appropriate security processes and remediate any Critical Issues promptly.

Failure to comply with this Section 3 within 20 business days after notice of breach will constitute a material breach of this Agreement.

4. **Secure Application Development.** When EagleView makes a material enhancement or major release to any application used in connection with the services provided under this Agreement, EagleView will:
 - 4.1 Conduct an application security assessment prior to placing such application into production. Application vulnerabilities, such as those referenced in OWASP Top 10, must be evaluated by a qualified employee or contractor to determine exploitability. EagleView will not place into production any applications that have vulnerabilities that are defined as Critical Issues.
 - 4.2 Upon request, provide application source code that has been specifically developed as a deliverable for the sole benefit of Customer or, alternatively, provide process documentation that supports review of such code.
 - 4.3 Not use Customer Confidential Information for any testing, unless Customer has given its prior written consent and such test use is subject to the same security policies and procedures as implemented in the production environment.
 - 4.4 No more than once per year while this Exhibit is in effect and with no less than thirty (30) days prior written notice to EagleView, Customer will be permitted to conduct a penetration test at Customer’s expense on a EagleView replicated, non-production testing site that includes all production security controls, in order to verify that EagleView has and continues to comply with the security and data requirements set forth in this Agreement. Customer may elect to use a qualified third-party vendor to conduct such penetration test. In no event will any such test exceed ten (10) business days in duration. Upon completion of such test, Customer will provide EagleView with a copy of the results of such test.
5. **Information Security Program.** Without limiting EagleView’s obligation of confidentiality under this Agreement, EagleView will establish and maintain a written information security program, together with adequate administrative, technical, and physical safeguards, to:
 - 5.1 Ensure the confidentiality, integrity, availability, security, or privacy of all Customer Confidential Information that is accessed, processed, stored, or controlled by EagleView;
 - 5.2 Protect against anticipated threats or hazards to the confidentiality, integrity, availability, security, or privacy of such Customer Confidential Information;
 - 5.3 Protect against unauthorized access to or use of such Customer Confidential Information; and
 - 5.4 Ensure the secure disposal of such Customer Confidential Information by shredding, erasing, or otherwise modifying the data to make it unreadable, undecipherable, and unrecoverable by any means consistent with the data destruction practices recommended by NIST.

Such written information security program and administrative, technical, and physical safeguards must be no less rigorous than accepted industry practices (such as applicable security standards published by ISO, ITIL, and/or NIST), and will ensure that all such safeguards, including the manner in which Customer Confidential Information is collected, accessed, used, stored, processed, disposed of, and disclosed, comply with applicable data protection and privacy laws, as well as the terms and conditions of this Agreement.

6. **Vulnerability Management.** EagleView will:
 - 6.1 Maintain an asset management process covering hardware and software.
 - 6.2 Maintain a patch management procedure that deploys security patches for systems used to access or process Customer Confidential Information that includes a defined timeframe to implement all patches based on a risk assessment (not to exceed thirty (30) days for patches rated critical or forty-five (45) days for patches rated high).
 - 6.3 Maintain a malware management process in accordance with industry standards for EagleView's entire infrastructure.
 - 6.4 Document and follow a formal change management/change control process that covers both systems and infrastructure and application programs to ensure only authorized changes are implemented.
 - 6.5 Engage a third-party vendor to perform an annual network-level penetration test that includes the following environments as applicable: production, non-production, multi-tenant, and shared services. The third-party vendor must follow industry best practices and be certified to conduct penetration testing. EagleView will also ensure all Critical Issues identified by such testing are remediated and retested promptly but in any event within 30 days. Upon completion of such test, EagleView will provide Customer with a letter from the third-party stating that testing was performed, and all critical/high issues were addressed.
 - 6.6 Conduct bi-annual vulnerability assessments to identify publicly known security vulnerabilities.
7. **Disaster Recovery and Business Continuity.** EagleView will maintain a backup of Customer Confidential Information, for an orderly and timely recovery thereof if access to or use of the services hereunder may be interrupted.
8. **Security Incident Process.** EagleView will notify Customer of any Security Incident within 48 hours of confirming that a Security Incident has occurred. EagleView will continue to notify Customer daily until Customer acknowledges receipt of such notification, which Customer agrees to do promptly upon receipt. Promptly following any such notice, the parties will coordinate to investigate the Security Incident. Unless otherwise agreed to in writing, EagleView will remediate the cause of such Security Incident immediately.
 - 8.1 EagleView agrees to fully cooperate with Customer in responding to the Security Incident, including, without limitation, by: (a) designating an employee and a backup who each will be available to Customer 24 hours per day, 7 days per week as a contact regarding obligations under this Section; and (b) assisting with any investigation of the nature or cause of such Security Incident.
 - 8.2 If Customer determines that applicable law or regulation requires notification to any person of a Security Incident, such notification will be carried out by EagleView at EagleView's cost, including any costs for credit monitoring or other mitigation services, unless otherwise directed by Customer in writing; provided, however, that in all cases Customer will have sole control over the content, timing, and method of any such notification to persons affected by a Security Incident involving Customer's Confidential Information.
 - 8.3 EagleView will maintain Security Incident handling and reporting processes that ensure: (a) server logs are maintained; (b) all Security Incidents are appropriately logged; (c) all information associated with a Security Incident and all server access and audit logs are retained for at least 3 years; and (d) all such logs and information are appropriately protected to ensure the integrity of such logs and information.
9. **Human Resources Security.** EagleView will: (a) unless agreed otherwise in the Agreement, perform criminal background checks covering charges and convictions of any felony or any misdemeanor involving violence, dishonesty, or breach of trust for all employees of EagleView and any Subcontractors who perform services at Customer facilities and/or access or process Customer Confidential Information and/or access Customer information systems; (b) ensure that physical and logical access for each employee of EagleView and of any

Subcontractors are deactivated within twenty-four (24) hours of such employee's termination of employment or such Subcontractor's termination of engagement; and (c) provide regular security awareness training to all EagleView employees and require Subcontractors to provide such training for their employees.

- 10. Facility Requirements.** EagleView will employ physical security procedures to ensure that only authorized individuals have access to corporate facilities. Such procedures will include, but not be limited to, the use of CCTV, cardkey access, process to log and monitor visitors. Surveillance records will be maintained for at least 30 days or, if Highly Sensitive Information is accessed or stored by EagleView, 3 months.
- 11. Record Retention and Return.** EagleView will retain Customer Confidential Information only as long as EagleView is required to by applicable law. Customer may request earlier destruction of all or a portion of such Customer Confidential Information. If Customer so requests, then EagleView will promptly destroy or arrange for the destruction of any and all retained copies of such Customer Confidential Information in EagleView's or any Subcontractor's possession or control by shredding, erasing, or otherwise modifying such Customer Confidential Information to make it unreadable, undecipherable, and unrecoverable by any means consistent with data destruction practices recommended by NIST and will certify in writing that the foregoing has been completed. Except as may be required by applicable law, the requirement to destroy Customer Confidential Information will not apply to Customer Confidential Information that has been, stored for backup or archiving purposes, but EagleView will continue to comply with the provisions of this Agreement regarding such Customer Confidential Information.
