## TERMS OF SERVICE

1. **Term.** The Agreement will be effective on and as of the Effective Date and will expire on the End Date identified on the Service Application (“Primary Term”). Service hereunder will commence on the date the Utility switches the Facilities (defined below) to our service (the “Service Date,” with the period between the Service Date and the End Date being the “Service Term”). Approximately 60 days prior to the end of the Service Term (or any Secondary Term), we may notify you in writing regarding our desire to establish a price for a subsequent term. If we notify you, both parties agree to endeavor to mutually agree on a Sales Price and, if applicable, new terms and conditions for a renewal term (such renewal term being a “Secondary Term,” and the combination of the Primary Term and any Secondary Term(s) being the “Term”). If mutual agreement on a new price is not reached and confirmed in writing at least 15 days prior to the end of the Term, the Sales Price as set forth in the Service Application will no longer be effective at the end of the Term (“Pricing Expiration Date”). Gas supplied after the Pricing Expiration Date shall be priced at Constellation’s then current commercial variable rate and shall be subject to these Terms of Service and General Terms and Conditions. Constellation will not be responsible for any delays in the Utility switching process.

2. **Sales and Delivery.** You will purchase from us 100% of the natural gas (“Gas”) requirements of each of the locations identified on the Service Application (each a “Facility”) each month during the Service Term. We will deliver, or cause to be delivered, Gas for your account to the citygate of the applicable Utility (the “Delivery Point”), at which point title to and responsibility for the Gas will pass to you. We will coordinate with the Utility regarding the redelivery of the Gas from the Delivery Point to each Facility. We may, at our cost and for our account, use any interstate transportation capacity or storage released to or for your account by the Utility to transport Gas to your Facilities or to third parties and/or re-release, broker or assign such capacity or storage to third parties. We are a registered competitive Gas supplier in Georgia, and we will perform our obligations under this Agreement in accordance with applicable laws, rules and regulations.

3. **Price.** The price(s) you will pay us for Gas sold hereunder (“Sales Price”) will be as set forth on the Service Application and may include fixed and/or variable components. You will pay us, for each month during the Service Term, an amount equal to the actual Gas usage at the Facility(ies) during such month (adjusted, if necessary, for fuel and shrink) multiplied by the applicable Sales Price(s), along with any other charges or credits relative to your Gas usage as indicated on the Service Application. In addition, you will pay us the Customer Charge indicated on the Service Application, and you will pay directly, or reimburse us if we have paid, all Utility Charges and Taxes.

4. **Utility Documents and Agency.** You will execute whatever documentation the Utility may require in order to recognize us as your supplier or in order to effect your participation in our supply program, and, if you currently have a transportation agreement with the Utility, you will provide us with a copy of that Agreement. You by this Agreement also appoint us as your limited agent so that we may from time to time take the actions that are necessary to provide you with service under this Agreement and any Supply Services, including, without limitation, all rights to inject Gas into and withdraw Gas from your Utility storage and/or volume banking account(s), if applicable and available. You will provide the Utility with whatever evidence of this agency relationship that the Utility requires. This agency is limited as set forth in this paragraph and will not impose on us during the Term any obligations or authority not expressly granted in this paragraph.

5. **Consumption Management.** We will provide the nomination, scheduling and balancing services necessary to serve the full Gas requirements of the Facilities. In order to assist us in performing these obligations, you will (a) notify us (an “Operational Notice”) of any change to the operations at a Facility (such as equipment outages, shift changes and plant closures) that may significantly impact monthly Gas consumption at such Facility; and (b) provide us with Gas meter readings on our reasonable request. If the Utility issues you any consumption management order (such as an operational flow order or an operational matching order), you will fully comply with such order. As long as you (i) provide us Operational Notices and, when requested, accurate meter readings; (ii) fully comply with all Utility consumption management orders; and (iii) otherwise perform your obligations under this Agreement, if the Utility imposes penalties on you or us as result of a Facility’s consumption being outside of the balancing tolerance set by the Utility, we will be responsible for any such penalty. Otherwise, you will be responsible for any such penalty. If you have interruptible distribution service with the Utility, we will have no liability arising from your failure to receive Gas as result of the interruption of such distribution service.

6. **Billing and Payment.** You will receive a monthly invoice for Gas consumed during the prior billing cycle, which will coincide with the Utility’s billing cycle that are based upon when the Utility’s reads your meter(s). You will be responsible for paying us all amounts due under the applicable invoice. Invoices will be based upon actual metered Gas consumption; provided that we reserve the right to estimate consumption if actual consumption data is not available at the time we render our invoice and reconcile estimated and actual consumption on a future invoice. Invoices from us will be due 20 days after the date of the invoice, and late payments or partial payments will accrue a late payment fee equal to the greater of \$10 or 1.5% of the balance due per month, not to exceed the maximum amount allowed by law. If you in good faith dispute any charges under this Agreement, you must provide us with a written explanation of the dispute and pay any undisputed portion such charges by the date they are due. Disputed amounts subsequently determined to be due will be paid with interest accrued at the interest rate set forth above from the original due date until paid. The Parties will discharge mutual payment obligations under this Agreement through netting, such that all amounts owed by each Party to the other Party during a billing cycle under this Agreement will be netted and only the excess amount remaining due shall be paid by the Party who owes it.

7. **Service Requirements.** You will pay any Utility entry or exit fees and subscribe to the applicable Supply Services,

including, without limitation, those Supply Services indicated on the Service Application, as required by the Utility for you to receive service under this Agreement. During any Secondary Term, you agree to maintain the Utility service class and any Supply Services indicated on the Service Application. You will provide, at your expense, any necessary equipment, meters or related services, such as electric or telephone lines, that are required by applicable law, rule, regulation or tariff for you to receive service under this Agreement.

**8. Credit and Collateral.** We have reviewed and approved your credit prior to entering this Agreement, and any credit terms are reflected on the Service Application. Should we at any time during the term become reasonably concerned about your credit quality (as result of, for instance, late payments or a credit rating agency downgrade or changes in consumption), the we may require, and you will provide to our reasonable satisfaction, additional credit assurance in the form of prepayment, a cash deposit or a letter of credit or a payment guaranty from a credit qualified party (“Performance Assurance”).

**9. Force Majeure.** Except for payment obligations, a Force Majeure event will, upon notice, excuse both parties’ performance during the event. "Force Majeure" means events not reasonably anticipated on the effective date hereof and not within the claiming Party’s control and specifically includes Force Majeure events declared by the Utility or the pipeline(s) we use to deliver Gas; curtailment of Gas by the Utility or curtailment of our firm transportation capacity; and the Utility’s appropriation of Gas.

Indemnity.** You shall indemnify and save us harmless from any and all liability to anyone whomsoever arising from damages, expenses (including reasonable attorney's fees) claims, actions, causes of action and lawsuits, including, but not limited to, death of persons and injury to persons and property, caused by your ownership, installation, removal, use, maintenance or repair of, or act in respect of, any machine, equipment, device, facility, appliance, piping and connections, property or Gas. We shall have no duties regarding the distribution, control, care or utilization of, or protection in the use of, the Gas beyond the Delivery Point, and you hereby assume such duties with respect to such Gas. We further shall not be liable to you for any loss, injury or damages whatsoever resulting from use of your equipment or from the use of Gas delivered by us.

**3. Events of Default.** An "Event of Default" will mean, with respect to a Party (the "Defaulting Party"): (a) the failure by the Defaulting Party to make, when due, any payment required under this Agreement and such failure is not cured within three (3) business days of written notice by the Non-Defaulting Party; (b) any representation or warranty made by the Defaulting Party herein proves to have been false or misleading when made or ceases to remain true during the Term; (c) the failure by the Defaulting Party to perform any obligation (not related to payment) set forth herein (not excused by Force Majeure) and such failure is not cured within fifteen (15) business days of written notice by the Non-Defaulting Party; (d) the Defaulting Party: (i) makes an assignment or any general arrangement for the benefit of creditors; (ii) files a petition or otherwise authorizes the commencement of a proceeding under any bankruptcy or similar law for the protection of creditors, or has such petition filed against it and such petition is not withdrawn or dismissed for 20 business days after such filing; (iii) otherwise becomes bankrupt or insolvent; (iv) is unable to pay its debts as they fall due; or (e) the Defaulting Party fails to provide Performance Assurance when and as required under this Agreement within three (3) business days of written notice by the Non-Defaulting Party.

**4. Remedies.** Upon an Event of Default. If an Event of Default shall have occurred and be continuing with respect to a Defaulting Party, the other Party (the "Non-Defaulting Party") shall, at its sole discretion, have the right to take one or more of the following actions: (a) terminate this Agreement by declaring a date for its

early termination ("Early Termination Date"), and calculate its Termination Payment as set forth below; (b) withhold any payment due to the Defaulting Party under this Agreement; (c) immediately suspend performance and direct the Utility to shut off your Gas service; and (d) exercise any rights and remedies under this Agreement or at law with respect to any Performance Assurance. If the Non-Defaulting Party elects to declare an Early Termination Date, it shall calculate the Termination Payment and notify the Defaulting Party of such amount as soon thereafter as is reasonably practicable.

**5. Termination Payment.** The Termination Payment shall be the net present value of the economic losses ("Losses"), if any, to the Non-Defaulting Party resulting from the termination of this Agreement, determined as of the date of termination. The Non-Defaulting Party will calculate its Losses in a commercially reasonable manner by comparing (i) the value to it of the quantity of Gas to be delivered over the remaining Term at the Sales Price, including, for variable price products, the Sales Price Adder, to (ii) the market value of the same quantity of Gas, including, for variable price products, the components of the Sales Price Adder, at the Delivery Point. The Non-Defaulting Party shall determine the market value for Gas using, among other things, applicable NYMEX futures contracts and bona fide third party offers. Losses shall also include any costs and expenses reasonably incurred by the Non-Defaulting Party in entering into new arrangements to replace this Agreement, including reasonable attorneys' fees. If the Non-Defaulting Party has Losses so calculated, the Defaulting Party shall pay the Non-Defaulting Party the amount of such Losses within five (5) business days of the Non-Defaulting Party's notice thereof. If the Non-Defaulting Party does not have Losses, there will be no Termination Payment owed by either Party. The Non-Defaulting Party shall not be required to enter into a transaction to replace this Agreement in order to calculate its Termination Payment. A Termination Payment cannot be less than zero (0).

**6. Other Termination / Shut off notice.** (a) We may also terminate this Agreement on fifteen (15) days written notice if changes to the current laws, decisions, tariffs, rules, regulations or procedures of your Utility, our transporter(s) or supplier(s) adversely affect our ability to provide service hereunder. In such case, we will calculate our Termination Payment and if we have Losses, you will pay us that amount. We may also terminate this Agreement if an assumption which forms the basis of this contract (including as an example your historical consumption data provided by either you or the utility) is either inaccurate or changes materially. (b) If Constellation elects to terminate this Agreement for any reason, whether or not contained in this Section 6, we shall provide you with no less than three (3) days written notice of shut off. Our notice of termination shall also serve as notice of shut off.

**7. Warranty Disclaimer.** We warrant that the Gas meets your Utility's quality standards and that title to such Gas is free from liens and adverse claims. **WE EXPRESSLY DISCLAIM ANY OTHER WARRANTY OR REPRESENTATION, WHETHER WRITTEN OR ORAL, EXPRESS OR IMPLIED, INCLUDING THOSE WITH RESPECT TO CONFORMITY OF THE GAS TO MODELS OR SAMPLES, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE.**

Any damages awarded must be consistent with the limitations set forth in this Agreement. EACH PARTY UNDERSTANDS AND AGREES THAT IT WILL NOT BE ABLE TO BRING AN ACTION IN A COURT OF LAW CONCERNING ANY DISPUTE THAT MAY ARISE UNDER THIS AGREEMENT OTHER THAN TO COMPEL ARBITRATION OR ENFORCE AN ARBITRATION AWARD.
