4-Buffers:

Based on the anticipated use of the land along the existing power and gas easements that bisect this project Effingham County shall impose no buffers to those easement boundaries. Effingham County shall impose a 50 foot buffer adjacent to highway 21 (to be landscaped in compliance with the Chamber of Commerce Gateway Program or approved by the zoning administrator if the program is not yet in place), a 10 foot buffer between the Industrial and commercial use and the communication tower property, and a 20 foot buffer between the Highway and Industrial Uses within this project.

In addition, Effingham County shall impose a 150 feet Buffer adjacent to Goshen Villa, Goshen Hills and Westwood Farms Subdivisions and property owned by David Howes and/or successors and Elizabeth R. Huger and/or successors, which shall be used for:

- A. a 35 feet wide **UNDISTURBED Buffer** section along the Exley Tract North northern property line adjacent to Goshen Villa, Goshen Hills and Westwood Farms Subdivisions and property owned by David Howes and/or successors and Elizabeth R. Huger and/or successors, which shall be left in its current condition and hereafter undisturbed and free of all utilities;

Huger and/or successors that may be cleared and used for each of the following; (1) a 25 feet tall (minimum height) Berm which will be landscaped and irrigated (see Exhibit C dated August 23, 2023 berm design plus description in Section D 1 below) in order to sustain the vegetation installed thereon, (2) drainage, including installation of drainage structures, ponds and ditches, (3) installation of security fencing and (4) providing such limited access as may be necessary to construct and maintain the Berm, drainage and fencing; and
- C. a 30 feet wide **Buffer** section along the Exley Tract North northern property line where highway commercial is adjacent to Alice Huger Hurst and/or successors, which shall be left in its current condition and hereafter undisturbed except for drainage;

- D. Except for the four (4) conditions listed in B above, no vertical building, concrete, asphalt or other impervious paving may be placed inside the 150 feet Buffer.
- E. There shall be no **Buffer** along the CSX railroad property.
- F. Except for the 35 feet **UNDISTURBED Buffer section described above**, the perimeter buffers may include the use of berms, fencing, plantings or a combination of these methods as determined by the Developer, subject to approval by County Manager or designee.
- G. In the event a railroad sidetrack is installed in Exley Tract South within the 25-foot buffer adjacent to the Railroad the 25-foot buffer shall be placed east of the new sideline. Railroad and road crossings across this buffer to access sidelines shall be considered an allowed use within the buffer.
- H. All tree plantings shall be in accordance with the Effingham County buffer ordinance.
- I. There shall be a “conditional buffer” of 450 feet as shown on Exhibit E and as described above.

6-Berms:

T&T Exley Properties, LLC or their successors in title acknowledge and agree that each party shall construct a **berm**, as required by the Terms of this Text, having a minimum height of 25' in the areas indicated on the Industrial Setback & Berm Exhibit C dated August 23, 2023. Each party shall be responsible for constructing and maintaining the required berms in accordance with the Industrial Building Square Feet Plan Exhibit B and the Industrial Setback and Berm Exhibit C, dated August 23, 2023, as it corresponds to its respective property. Without limiting the foregoing, Berm A shall be installed and completed in connection with any Buildings constructed in the area of Buildings 2 or 3, Berm B shall be installed and completed in connection with any Buildings constructed in the area of Building 4 and Berm C shall be installed and completed in connection with any Buildings constructed in the area of Buildings 5 or 6. **Said Berms shall be constructed simultaneously with the land disturbing activity and building or other construction.** Prior to building any berms, the use of existing dirt roads, that are more than 150 feet away from the Exley Tract North northern property line, is permitted but they shall remain dirt. No berm shall be installed for any building, driveway, parking area, or other impervious surface that is not closer than 450 feet to the Exley Tract North northern property line. The berms, when constructed, shall be compacted to a minimum of 25' in height with a minimum 2:1 side slope, stabilized with vegetative cover and irrigation, and otherwise completed in accordance with the berm specifications as shown in Exhibit C dated August 23, 2023. The berm, landscaping and irrigation shall be completed in phases, substantially depicted as Berm A, Berm B and Berm C on the Industrial Setback and Berm Exhibit C, in each case on or before the issuance by Effingham County of the certificate of occupancy with respect to the corresponding building, so that each completed building is screened from the neighboring residential properties to the north that share a common property line with the Exley Tract North and South northern property line adjacent to Goshen Villa, Goshen Hills and Westwood Farms Subdivisions and property owned by David Howes and/or successors and Elizabeth R. Huger and/or successors. No Berm shall be required along the Northern Property Line on Property approved for Highway Commercial Use.

D. Except for Sections E and F below which are included for Approval in the amended text described in Paragraph 1 above, each of the Sections below are Exceptions that were Requested and Previously Approved by the Effingham County Commission in 2008, 2018 and 2021

The information included in this Development Text shall govern the Zoning and Subdivision regulations for this project. In the event of any conflict this document shall govern. (See Section C for additional conditions)

Due to the nature of this development, the applicant shall reserve the right to negotiate shared parking facilities between similar uses. The benefits of reducing parking areas include:

- minimizing stormwater runoff from parking areas, thus reducing potential water quality impacts;
- Varying time periods of use;

Provided changes to the street layout, individual building location, size and shape as shown on Exhibit C do not encroach into the 150 feet Buffer, they shall be made at the sole choice of the Developer.

Restatement of approved PD–MU Waiver of the Water Resources Protection Ordinance**Section 3. Waivers to Stormwater Management Requirements:**

All of the conditions listed in section 3 of the Water Resource Protection Ordinance are waived on the sole basis of section 3.1b. This section allows for the County or its Agent to waive the requirements of the Water Resource Protection Ordinance and the Stormwater Management Local Design Manual and replace them with alternative minimum requirements for on-site management of stormwater discharges.

The Stormwater Management Local Design Management Design Manual for Exley Tract North and South (formerly approved in 2008, 2018 and 2021 as Exhibit III) is included as Exhibit D in this PD Zoning application package as the alternate minimum requirements for on-site management of stormwater discharges. This document takes precedent over Effingham County's current Water Resource Protection Ordinance and Stormwater Management Local Design Management Design Manual. In event of a conflict between any of the documents the governing document shall be in the following order: governing – Stormwater Management Local Design Management Design Manual for Exley Tract North and South, 2nd – Water Resource Protection Ordinance and 3rd – Stormwater Management Local Design Manual.

E. Percentage of Land Uses

Table E-1 indicates acreages of land uses planned for Exley Tract North and South.

G. Proposed Dedication of Public Use

Streets and Utility Easements:

All streets and utility easements will be presented to the Effingham County Board of Commissioners for acceptance as public streets and easements or dedicated to the Property Owners Association. Acceptance of street dedications shall be at the discretion of the Effingham County Board of Commissioners.

H. Open Space, Courts, Walks, and Common Areas

Wetlands

US Army Corps of Engineers Jurisdictional Wetlands will be owned by the developer until presented to Effingham County for dedication or dedicated to the Property Owners Association. If presented to Effingham County, acceptance of these dedications shall be at the discretion of the Effingham County Board of Commissioners. No machine clearing, or logging shall be allowed in the preserved wetland portion of the property without the expressed written approval of the zoning administrator.

Lakes

Lakes will be located throughout Exley Tract to manage stormwater runoff for both quantity and quality. The lakes will be designed to aid in attenuating the design storm events to pre-development flow rates. Lakes shall be owned and maintained by the developer until such time as these facilities are dedicated to the Property Owners Association or Effingham

County. Acceptance of these dedications shall be at the discretion of the Effingham County Board of Commissioners.

I. Utilities

Water and sewer will be provided by Effingham County. These utilities within this development will be installed by the developer and dedicated to Effingham County upon acceptance by the Board of Commissioners or designee.

Stormwater management will be handled through a series of detention ponds. These ponds shall be designed based on the Stormwater Management Local Design Manual included as Exhibit D to this application. All plans will be reviewed and approved by the Effingham County Engineer prior to construction.

J. Access, Parking, Signs and Buffers

Access to the site will be from Highway 21. Improvements required to provide access to the project will be designed, permitted, and constructed by the Developer.

A tenant/property owner identification sign shall be located at the entrance of the industrial park. The sign shall be in place no later than the occupancy of the last available parcel.

As mentioned in section D, shared parking is anticipated among the uses in order to decrease the amount of unproductive surface parking needed. These shared parking arrangements will be presented in conjunction with subsequent development plans.

Any lighting used for this development will be designed in a manner to avoid any negative impacts to adjacent properties. All pole lighting shall be shielded, downward facing, no taller than the nearest building and maximum height of 35 feet.

Buffers for the project are shown on Exhibit B, Exhibit C, Exhibit E and further described in Section C of this document.

K. Development Schedule

Based on historical sales in surrounding areas, it is anticipated this project will be built out in approximately 8 years for Industrial and 10 years for

commercial. This schedule is based on current market conditions and may vary over time.

L. Installation of Improvements

The developer of any parcel within this PD–MU shall be responsible for improvements (excluding any utilities specifically agreed to be installed by Effingham County) required to develop the parcel consistent with this application. This requirement shall be met as market conditions warrant and are not set to a specific timetable.
