Dear Marti:

This letter is to identify the additional costs associated with the locations that you have requested to be part of the LAN network proposal. For clarification, I will restate the areas covered by the first proposal and build upon it.

Proposal # 1 was to connect the Administrative Complex, the Courthouse, and the County Annex buildings at a cost for labor and materials of \$27,900. A \$900 cost given for the addition of the Public Works building brought the total to \$28,800.

The addition of the Old Jail Museum (\$750), the Dept. of Transportation (\$800), the Animal Control (\$750), and the Sheriff's Dept. (\$9,700) adds a total of \$12,000 to the project, bringing the overall total to \$40,800.

In addition, a request to investigate the possibility of using multimode fiber brought a quote of \$3.10 per foot from our vendor. Using this price throughout, the total would increase by approximately 15 - 17 thousand dollars.

I can be available to discuss this estimate at any time and look forward to working with you on this project. My direct telephone number is 356-3136.

Sincerely
