

Staff Report

Subject: Lighting Services Agreement for Rahn Station / McCall Road Roundabout

Author: Danielle Carver, Procurement Manager

Department: Procurement, Engineering

Meeting Date: February 17, 2026

Item Description: Consideration to approve a lighting services agreement with Georgia Power for roadway lighting at the Rahn Station / McCall Road Roundabout.

Summary Recommendation: Staff recommends approval of the lighting services agreement with Georgia Power Company for the Rahn Station / McCall Road Roundabout.

Executive Summary / Background:

As part of the Rahn Station / McCall Road Roundabout project, roadway lighting is required to enhance visibility and improve traffic safety. Georgia Power Company has provided a Lighting Services Agreement (Project No. LP124628) to install and maintain lighting infrastructure at the roundabout located at 2700 McCall Road, Rincon, Georgia.

The agreement provides for the installation of twenty (20) LED roadway lights, which will be owned, operated, and maintained by Georgia Power. The County will receive lighting service under Georgia Power's governmental lighting tariff, with monthly charges billed in accordance with rates approved by the Georgia Public Service Commission.

The agreement also includes a one-time prepayment for installation costs, after which the lighting service will continue on a month-to-month basis. Approval of this agreement allows the roundabout project to be fully operational and safely illuminated for public use.

Alternatives for Commission to Consider:

1. Approve the lighting services agreement with Georgia Power.
2. Do not approve the agreement.

Recommended Alternative: 1

Other Alternatives: 2
