ABOUT US

scDataCom is a nationally recognized expert in physical and electronic security systems, specializing in large organizations with complex requirements. We are headquartered in beautiful Savannah, Georgia and serve a large commercial customer base within the South East Region as well as public agencies across the nation.

Owned and operated by a mother daughter duo, scDataCom is, first and foremost, a family owned business with deep ties to our team and to the communities that we serve. Additionally, we are nationally certified as a Woman Owned Small Business (WOSB/WBE), a Service Disabled Veteran Owned Small Business (SDVOSB), and locally certified as a Savannah Small Business Enterprise (SBE).

We are proud of these affiliations and are committed to representing these relationships in a way that reflects positively on the populations that we represent.

SCDATA COM

WHY WE ARE UNIQUELY QUALIFIED TO ENHANCE THE SECURITY INFRASTRUCTURE FOR THE EFFINGHAM COUNTY PRISON IN SPRINGFIELD GEORGIA.

scDataCom is pleased to provide this proposal in response to the request to bolster the security infrastructure of the Effingham County Prison by upgrading its existing CCTV surveillance system for a modern Avigilon solution. This endeavor involves a comprehensive overhaul, transitioning to state-of-the-art solutions provided by Avigilon. We are a local Security Integrator and certified Avigilon partner. We specialize in customized Access Control System and Video Surveillance System installations which includes a large portfolio of Federal and Public sector projects. We are confident that our proposal will provide competitive value and a great solution to the long-term security needs of the Effingham County Prison.

Our team has extensive relevant contract experience performing work of similar technical complexity, to include Access Control and Video Surveillance installation and maintenance in government facilities. We specialize in the Federal and Government markets and are experienced in the unique requirements related to delivering services in this environment.

2: TECHNICAL SPECIFICATIONS:

Scope of Work:

Effingham County Prison's security is paramount. scDataCom's proposed Avigilon video surveillance solution delivers precisely that: enhanced security through comprehensive coverage, acting as a true force multiplier for existing security personnel. Strategically placed Avigilon cameras, including specialized models for every need, eliminate blind spots, providing crystal-clear imagery and unparalleled situational awareness. Powerful analytics proactively identify potential threats, enabling preemptive intervention and a safer environment. The robust infrastructure ensures reliable performance, while intuitive workstations empower staff with easy access to real-time and recorded footage. Beyond the technology, scDataCom's commitment extends to long-term system health. The optional preventative maintenance and support agreement provides peace of mind, guaranteeing peak system performance, software updates, expert support, and proactive maintenance, ultimately maximizing the system's longevity and ensuring a safer, more secure future for the facility.

CCTV Surveillance System Upgrade:

- Upgrade the existing surveillance system to an advanced Avigilon solution, leveraging cutting-edge security features.
- Install one (1) NVR6-PRM-FORM-D-72TB-S22-NA Avigilon Server to provide high-capacity video storage and processing.
- Deploy two (2) RM7-WKS-2MN-NA Avigilon Workstations for system management and real-time monitoring.
- Provide and install 2 LG 43" BE43C-H wall mounted LED monitors at each workstation for enhanced monitoring.
- Integrate all new components with the facility's existing security infrastructure to ensure seamless operation.

CCTV Camera Deployment:

To ensure robust security and full surveillance coverage of the Effingham County Prison, the following Avigilon cameras have been strategically selected and positioned. The chosen models provide comprehensive monitoring of the entire prison exterior perimeter, including all entrances and exits. Additionally, surveillance extends to critical areas such as the lobby, corridors, dorms, dayrooms, isolation cells, kitchen and dining areas, maintenance shop, mailroom, and all sensitive areas identified during the site survey.

The deployment consists of:

- **(21) 3.0C-H5A-CR1-IR-SS Avigilon Corner Mount Anti-Ligature Cameras**
 - Designed for secure and tamper-proof surveillance in high-risk areas such as isolation cells and inmate dormitories.
 - Ensures visibility while preventing damage or obstruction attempts.
- **(7) 8.0C-H5A-FE-DO1-IR Avigilon Fisheye Cameras**
 - Provides wide-area surveillance with 360° coverage, reducing blind spots in open spaces, dayrooms, and large inmate common areas.
- **(2) 8.0C-H5A-FE-DO1-IR Avigilon 270° Cameras**
 - Ideal for monitoring hallway intersections, corridor movements, and perimeter corners for complete situational awareness.
- **(1) 12C-H5A-4MH Avigilon 360° Multi-Sensor Camera**
 - Offers comprehensive monitoring in areas requiring full panoramic coverage, such as the prison yard or central control points.
- **(3) 2.0C-H5A-DO1-IR Avigilon Outdoor Dome Cameras**
 - Provides high-definition monitoring of the exterior perimeter and entry/exit points, ensuring perimeter security and detection of unauthorized movements.
- **(7) 2.0C-H5A-D1-IR Avigilon Indoor Dome Cameras**
 - Positioned for general interior monitoring, ensuring surveillance of hallways, administrative offices, sensitive storage areas, and other key locations within the facility.

This carefully selected camera system ensures that all critical security zones within the prison are monitored 24/7, enhancing situational awareness, deterring incidents, and maintaining operational control.

Infrastructure Upgrades:

To support the upgraded surveillance system, scDataCom will implement the following infrastructure enhancements:

- **Fiber Optic Network Installation:**
 - 750 ft of 372-COMOM3-LTD-12 Fiber MM ST for high-speed data transmission.
 - 24 x 95-050-51-X ST Connectors for fiber termination.
 - 2 x WIC-02P Wall Mounted LIUs for fiber management.
 - 2 x CCH-CP12-H3 ST CCH Panels for fiber patching.

- **Network Cabling and Connectivity:**

- 5000' x Plenum Cat 6 Cable for robust data communication.
- 6 x DTKMRJ-POE Surge Protectors to safeguard equipment against power surges.

- **Installation and Configuration:**

- Replacement of existing cabling and installation of new network infrastructure to optimize performance.
- Proper labeling of all cables at both ends for easy identification and future maintenance.
- Use of conduit in exposed areas and exterior locations to protect cabling.
- Testing and validation of all installed components, with electronic test results provided to the site COR.

System Configuration and Testing:

- Configuration of all Avigilon cameras, servers, and workstations to align with operational security protocols.
- Testing of system functionality, including recording, playback, and integration with existing security measures.
- Verification of access control schedules to ensure compliance with facility security policies.
- Ensuring uninterrupted system operation throughout the deployment phase to minimize security risks.

Training and Documentation:

- Hands-on training sessions for Effingham County security personnel to ensure efficient system operation and management.
- Provision of comprehensive as-built documentation, including wiring diagrams, camera placement maps, and system configuration details for future reference and maintenance.

Preventative Maintenance and Support Option

scDataCom is dedicated to maintaining the Effingham County Prison's Video Surveillance System at peak performance and reliability. This commitment is upheld with the availability of a comprehensive annual preventative maintenance and continuous software support agreement.

During each visit, scDataCom will conduct a thorough evaluation of the CCTV servers and workstation infrastructure. This includes assessing both hardware and software components, performing routine updates, checking system health, and verifying that all system elements are fully operational. We will also inspect and maintain disk drives to ensure they are performing optimally, addressing any issues related to disk space and performance through routine cleanup. We will review event logs to identify and correct any errors or warnings, thereby preventing potential system failures. Management of database archives will be undertaken to ensure they are properly stored and retrievable, with archival processes verified for proper functionality.

scDataCom will conduct thorough testing of system functionality, including surveillance hardware inspections to confirm that fields of view are unobstructed, and equipment meets the facility's surveillance needs. Equipment will be cleaned and adjusted as necessary, and security system cabling will be inspected for wear or degradation, with any detected issues addressed. Additionally, firmware on all system components will be updated to the latest versions, with

updates verified for successful application and system stability confirmed with the site representative.

Through these meticulous efforts, scDataCom aims to maintain the highest standards of performance, reliability, and security for the CCTV systems at the Effingham County Prison.

System Software Support Agreements

Included with the optional Preventative Maintenance and Support Agreement scDataCom will deploy an Avigilon Certified Engineer to facilitate the annual renewal of the site's ACC licensing, along with providing any necessary CCTV software or firmware updates. Our engineer will work with the site contacts to verify that the configuration of servers and workstations meets facility needs. Notifications about system upgrades, including software details and versions, will be promptly communicated. All upgraded systems will be tested to verify functionality. All testing results will be reviewed with the site representative upon completion.

Project Deliverables:

- Fully operational Avigilon surveillance system with real-time monitoring and analytics.
- Enhanced security coverage for all critical areas of the prison facility.
- Upgraded infrastructure to support long-term system performance and scalability.
- Comprehensive training and documentation for continued system management.

scDataCom is committed to delivering a state-of-the-art surveillance solution that meets the security demands of Effingham County Prison while ensuring a smooth transition from the existing system.

3. PROJECT MANAGEMENT:

- scDataCom will designate a single Project Manager who will schedule and coordinate all project activities. The Project Manager will generate Weekly Installation Progress Reports for submission to key contacts for the Effingham County team
- The Project Manager will establish and maintain all records and oversee quality control activities
- The Project Manager will be responsible for all scheduled activities and conducting stakeholder meetings and updates in accordance with approved Communications Management Plan.
- Site Supervisor: scDataCom will provide a Senior Supervisor to be on site during the installation, who will serve as the Lead Technician and be responsible for overseeing all aspects of project progress. Site Supervisor that will perform daily inspections on project work, equipment, and compliance. Site supervisor will be minimally OSHA-30 certified with at least 5 years of industry experience. Safety Logs will be completed and compiled electronically for records at company repository.

4. QUALITY MANAGEMENT

scDataCom fully integrates its quality management system into the organizational structure and performance management systems for each project. We:

1. Maintain a documented quality system consisting of a quality manual with policies and procedures. Copies of this manual will be delivered to the COR and carried by the Project Manager and Supervisor at all times when on site.

2. Tightly control exceptions to the quality system so company standards are applied uniformly to every project. Any deviation for a specific operational reason will be previewed with the COR, other Effingham County staff and documented accordingly.
3. Systematically maintain quality system documents and records.

5. COMMUNICATIONS MANAGEMENT

Formal updates will be provided weekly as project progresses. Updates will be sent to the Effingham County site contacts via email that includes current Gantt chart and total progression status. Immediate communications to external stakeholders for significant impact to scheduling will be conducted as needed. Internal update briefings will be conducted twice a week to identify progress status, challenges and change requests. Immediate communications will be made for any emergencies to include stop work, accidents, site incidents, or significant challenges that will impact scheduling.

6. MOVES/ADDS/CHANGES

All requests for moves, adds and changes will be forwarded to the Effingham County team prior to any work being performed for acceptance prior to any work being performed. All additional work will be approved in writing.

7. PRE-INSTALLATION DELIVERABLES

After receipt of order and prior to beginning work on site, scDataCom will complete the following tasks:

- Kick Off Meeting: schedule a kick-off meeting within 10 days ARO. The purpose of the kick-off meeting is to review the project plan in order to develop a detailed Work Breakdown (WBD) and project schedule, and to review the scope of work.
- Detailed Work Plan: Deliver a detailed Project Plan and Work Breakdown Schedule within 14 days ARO for customer review and acceptance.
- Key Personnel: Within 20 days ARO, scDataCom will provide a list of Key Personnel supporting this project, to include Project Manager, Quality Control Manager, and Site Supervisor.
- Site Inspection: scDataCom will perform an inspection of the buildings and grounds with the team prior to commencing work.

8. POST-INSTALLATION DELIVERABLES

After installation is complete, scDataCom will inspect and test the system with the COR. A minimum of (2) copies of pre-test results will be furnished to the COR for review prior to Final Acceptance Testing. Additional deliverables include the following:

- a. Provide customer with all licenses, entitlements, activation keys, and associated paperwork
- b. Provide MAC addresses and ID numbers to customer
- c. Provide as-built drawings containing hardware locations, naming conventions, wiring diagrams, equipment ID, patch panel port #, router number and ports utilized

9. AS-BUILT DRAWINGS

scDataCom Registered Communications Distribution Designer team will create and provide As-Built drawings of the installed Avigilon system equipment and their wiring configurations as well as cable and conduit pathways. Provided will be 2 sets of hardcopy drawings and electronic copies.

10. WARRANTY TERMS

scDataCom provides a minimum warranty period of twelve months from the date of final acceptance for all provided and installed equipment. This warranty covers both materials and workmanship under normal use and service, when used for the purpose for which the unit was designed. scDataCom will honor standard Manufacturer warranties of greater than 12 months.

11. EXCLUSIONS/ASSUMPTIONS: The following exclusions/assumptions are included in this proposal

- a. scDataCom is not responsible for any high voltage electrical, including installation of power outlets.
- b. scDataCom is not responsible for maintenance of fire protection and HVAC controls.
- c. Any existing access control cabling or electrified door hardware deemed necessary for replacement would require a change order for replacement.
- d. All materials installed will meet the specifications provided in the SOW
- e. Damage to equipment due to negligence, willful acts, or acts of God or due power surges is excluded from warranty

12. PAST PERFORMANCE:

scDataCom, LLC is uniquely qualified to perform the work required under this solicitation. We are a verified Service-Disabled Veteran Owned and Woman Owned Small Business headquartered in Savannah Georgia. Dear Mrs. Ford:

On behalf of the U.S. Department of Veterans Affairs (VA), Center for Verification and Evaluation (CVE), I am writing to inform you that your application for reverification has been approved. scDataCom, LLC will remain eligible to participate in Veterans First Contracting Program opportunities with VA as a verified Service-Disabled Veteran-Owned Small Business (SDVOSB).

This verification is valid for three (3) years from the date of this letter. Please retain a copy of this letter to confirm scDataCom, LLC's continued program eligibility in accordance with 38 Code of Federal Regulation (CFR) § 74.12. You may reapply 120 days prior to your new expiration date by logging into <https://www.vetbiz.va.gov/>.

To promote scDataCom, LLC's verified status, you may use the following link to download the logo for use on your marketing materials and business cards: https://www.va.gov/OSDBU/docs/cve_completed_s.jpg. In addition, please access the following link for information on next steps and opportunities for verified businesses: <http://www.va.gov/osdbu/verification/whatsNext.asp>.

While CVE has confirmed that scDataCom, LLC is presently, as of the issuance of this notice, in compliance with the regulation, scDataCom, LLC must inform CVE of any changes or other circumstances that would adversely affect its eligibility. Eligibility changes not reported to CVE within 30 days could result in a referral to the Office of Inspector General (OIG), a referral to the Debarment and Suspension Committee, and the initiation of cancellation proceedings—all of which could result in scDataCom, LLC being removed from the VIP Verification Program.

Please be advised all verified businesses may be required to participate in one or more post-verification audits at CVE's discretion. Additionally, this letter and other

*"World Class Professionals
Enabling Veteran Business Opportunities by Protecting the Veteran Advantage - One Vet at a Time"*

information pertaining to scDataCom, LLC's verification application may be subject to Freedom of Information Act (FOIA) requests. However, FOIA disclosures include exceptions regarding the personal privacy of individuals, and VA policy similarly provides limitations on the release of individuals records.

If scDataCom, LLC receives a negative size determination from the U.S. Small Business Administration (SBA), CVE must act in accordance with 38 CFR § 74.2(e). Also note, if at any time scDataCom, LLC discovers that it fails to meet the size standards for any NAICS Code(s) listed on its VIP profile, CVE requires such NAICS Code(s) be removed within five (5) business days. If these NAICS Codes are not removed within the allotted five (5) business days, CVE may request SBA conduct a formal size determination. In addition, CVE may initiate a referral to OIG, a referral to the Debarment and Suspension Committee and pursue cancellation proceedings. All of the aforementioned referrals and procedures could result in scDataCom, LLC being removed from the VIP Verification Program.

Thank you for your service to our country and for continuing to serve America through small business ownership.

Sincerely,

A handwritten signature in black ink, appearing to read "John Perkins". The signature is fluid and cursive, with the first name "John" and last name "Perkins" clearly distinguishable.

**HEREBY GRANTS
WOMAN OWNED SMALL BUSINESS (WOSB) CERTIFICATION TO**

scDataCom, LLC

The identified small business is an eligible WOSB for the WOSB Program, as set forth in 13 C.F.R. part 127 and has been certified as such by an SBA approved Third Party Certifier pursuant to the Third Party Agreement, dated June 30, 2011, and available at www.sba.gov/wosb.

The WOSB Certification expires on the date herein unless there is a change to the SBA's regulation that makes the WOSB ineligible or there is a change in the WOSB that makes the WOSB ineligible. If either occurs, this WOSB Certification is immediately invalid. The WOSB must not misrepresent its certification status to any other party, including any local or State government or contracting official or the Federal government or any of its contracting officials.

AVIGILON™

Network Video Recorders

Uncompromising performance and reliability you can trust

Built to handle heavy-duty video workloads and flexible retention requirements without sacrificing performance, the sixth-generation **Avigilon Network Video Recorder (NVR6)** delivers where it matters: performance, reliability, and security. Quickly scale up from terabytes to petabytes of storage at a single location, as the NVR6 offers 16TB to 440TB storage options in a single NVR. Experience the might of a storage density that matches the compute density, supporting up to 400 recording and live streaming channels. Streamline your server deployment to save time and resources with NVR6, fully optimized and pre-configured with Avigilon Unity Video¹ software and Windows OS.

Flexible and scalable tier-1 storage

Offers flexible configurations for security teams to quickly scale up to 440 TB in Tier-1 storage capacity and tailor it to their unique retention requirements.

Superior redundancy & reliable data storage

Reliable storage with RAID-configured redundancy offers a highly available and resilient system that protects your data. Our models include reliable hard drives with RAID6 (STD and PRM) or RAID60 (PRM PLUS) redundancy.

Quick & simple deployment with Avigilon Unity Video™ pre-configured

The NVR6 comes pre-configured with Avigilon Unity Video¹ software for secure network video recording and management of Avigilon cameras up to 61 MP resolution. Comes with Unity Video 8 installer available for upgrade.

Increase system uptime & productivity

Sites connected to the cloud and subscriber health can use system health monitoring to increase system availability, streamline maintenance time, and minimize on-site service calls.

Respond faster with AI-powered analytics support

Security teams can respond faster to critical events with the NVR6's seamless support for Avigilon Appearance Search, Facial Recognition, and LPR technologies.

Resolve technical issues end-to-end with a single-point-of-contact

Our NVR6s are backed by up to a 5-year warranty² and 24/7 lifetime technical support dedicated to Avigilon's End-to-End solution.

Strengthen cybersecurity

Designed with cybersecurity in mind, the NVR6 comes with a TPM 2.0 module built-in to support hardware Root of Trust authentication and data encryption.

¹ Pre-installed with Avigilon Control Center 7. Unity Video 8 Installer for upgrade is available.

² NVR Value comes with a 3-year warranty only. Warranty coverage and support Service Level Agreement is subject to end user's geographic location. Please refer to [Avigilon Limited Warranty & Product Policies](#) (Supplement #1 for Form D chassis and Supplement #2 for Form H chassis) and our datasheet for more information.

Analytics and Specifications

Avigilon Appearance Search™

Quickly locates a specific person or vehicle of interest across an entire site using a sophisticated deep learning AI search engine.
UNITY8/ACC7-ENT required

Facial Recognition

Detects matches from managed watchlists to alert operators of people of interest. Requires Appearance Search and an additional license.
UNITY8/ACC7-FACE required

License Plate Recognition (LPR)

Significant improvements² in LPR performance compared to the previous generations of NVRs. Works with ACC software for accurate license plate capture at a range of distances and speeds. Requires an additional license.
UNITY8/ACC7-LPR required

Occupancy Counting

With cameras at entrances and exits, a running total of occupancy can be monitored in real time.

Remote Monitoring Workstation

2 Monitor

4 Monitor

The Avigilon Remote Monitoring Workstation lineup offers a simple and easy way to bring high-resolution video monitoring to new and existing systems. Optimized to support ACC Client workloads, these pre-provisioned workstations are quick to deploy and reliable in the field.

Features

Tested Performance

The Avigilon Workstation lineup has been stress tested through various component combinations for the highest performance for ACC Client workloads.

Small Form Factor

Its streamlined size and design reduces hardware footprint for space-constrained areas.

Easy Recovery

A purpose-built and turnkey solution that is simple and secure for Security and IT teams to deploy.

Simple Setup

Plug-and-play is made easy with DisplayPort and HDMI adapters included for typical monitor connections.

H5A MULTISENSOR CAMERA

9 MP

12 MP

15 MP

20 MP

24 MP

32 MP

The Avigilon H5A Multisensor camera helps ensure your site is covered from all angles by combining Next-Generation Video Analytics and three or four adjustable sensors into one powerful solution. Monitor virtually any area in all lighting conditions with up to 360-degree views from a single camera. This makes the H5A Multisensor perfect for securing wide areas, including outdoor building corners, parking lots, crossroads, as well as indoor areas with high ceilings, long corridors and hallway intersections.

FEATURES

NEXT-GENERATION VIDEO ANALYTICS

Detects more objects with expanded object classifications and greater accuracy for faster responses, even in crowded scenes.

IMPACT, WATER, DUST & CORROSION PROTECTION

Protects against impact, water, windblown dust and a degree of corrosion with IK10, IP66/67, NEMA Type 4X and TS2 ratings.

ONVIF® COMPLIANT

ONVIF Profile S and T compliance enables easy integration with existing ONVIF infrastructures. Profile G compliance supports search, playback and retrieval of recordings on the edge, while Profile M allows for cross-functionality with third-party analytic solutions.

VARIFOCAL LENSES

Enables you to customize the field of view to optimally protect your site, while lens distortion correction provides a seamless viewing experience.

FIPS 140-2 COMPLIANT WITH INTEGRATED TPM

Meets the high data security standards required by federal government agencies and heavily regulated enterprises with FIPS-compliant cryptography support, integrated TPM and Secure Boot.

HIGH-QUALITY IMAGES IN ALL LIGHTING

Sees clearly in the most challenging lighting conditions with faster frame rates, improved Wide Dynamic Range and optional IR illumination.

ONVIF is a trademark of Onvif, Inc.

SUPPORTED ANALYTICS EVENTS	
Objects in Area	The event is triggered when the selected object type moves into the region of interest.
Object Loitering	The event is triggered when the selected object type stays within the region of interest for an extended amount of time.
Objects Crossing Beam	The event is triggered when the specified number of objects have crossed the directional beam that is configured over the camera's field of view. The beam can be unidirectional or bidirectional.
Object Appears or Enters Area	The event is triggered by each object that enters the region of interest. This event can be used to count objects.

SUPPORTED ANALYTICS EVENTS	
Object Not Present in Area	The event is triggered when no objects are present in the region of interest.
Objects Enter Area	The event is triggered when the specified number of objects have entered the region of interest.
Objects Leave Area	The event is triggered when the specified number of objects have left the region of interest.
Object Stops in Area	The event is triggered when an object in a region of interest stops moving for the specified threshold time.
Object Too Close	The event is triggered when an object moves to within a certain threshold distance of another object.
Direction Violated	The event is triggered when an object moves in the prohibited direction of travel.
Tamper Detection	The event is triggered when the scene unexpectedly changes.

MOUNTING ADAPTERS AND DOME COVERS

The H5A Multisensor modular design provides pendant, surface, or in-ceiling mounting adapters and a choice of two dome covers compatible with all the H5A Multisensor camera modules.

DISPLAY PART NUMBER	DESCRIPTION
H5AMH-AD-DOME1	Outdoor surface mount adapter, must order either a H5AMH-DO-COVR1 or H5AMH-DO-COVR1-SMOKE.
H5AMH-AD-PEND1	Outdoor pendant mount adapter, must order one of WLMT-1001 or NPTA-1001 and one of H5AMH-DO-COVR1 or H5AMH-DO-COVR1-SMOKE.
WLMT-1001	Pendant wall arm adapter, for use with H5AMH-AD-PEND1.
NPTA-1001	Pendant NPT adapter for use with H5AMH-AD-PEND1.
PLMT-1001	Aluminum pole mounting bracket, compatible with WLMT-1001.
CRNMT-1001	Aluminum corner mounting bracket, compatible with WLMT-1001.
H4AMH-AD-CEIL1	In-ceiling adapter, must order either a H5AMH-DC-COVR1 or H5AMH-DC-COVR1-SMOKE.
H5AMH-DO-COVR1	Dome bubble and cover, for outdoor surface mount or pendant mount, clear.
H5AMH-DO-COVR1-SMOKE	Dome bubble and cover, for outdoor surface mount or pendant mount, smoked. Not recommended for low light.
H5AMH-DC-COVR1	Dome bubble and cover, for in-ceiling mount, clear.
H5AMH-DC-COVR1-SMOKE	Dome bubble and cover, for in-ceiling mount, smoked. Not recommended for lowlight applications.
CPNL-1001	Metal ceiling panel.

OPTIONAL IR ILLUMINATOR

The optional IR Illuminator is available for the H5A Multisensor when mounted in a pendant or surface mount adapter.

DISPLAY PART NUMBER	DESCRIPTION

H5A Fisheye Camera

8 MP

12 MP

The Avigilon H5A Fisheye Camera is a cost-effective and easy-to-install solution that provides 360° panoramic views of large areas from a single vantage point, bringing superior situational awareness without any blind spots. Facilities such as schools, retailers, offices, hospitals and manufacturing plants can leverage the camera's high-resolution video to monitor processes and optimize operational efficiencies, along with its analytics and AI capabilities to proactively detect critical events and enhance the productivity of security teams.

Features

360° Panoramic Views

Provides 360° coverage from a single vantage point to help lower overall video security deployment costs.

H.264 and H.265 with HDSM SmartCodec™ Technology

Optimizes compression levels for regions in a scene to help maximize bandwidth savings and keep internet connectivity costs down.

Low-profile & Easy-to-install Design

Offers unobtrusive monitoring with a paintable front plate¹ that can be customized to fit in with interior aesthetics, backed by an easy installation.

FIPS 140-2 Compliant

Brings increased data security with FIPS-compliant cryptography enabled on cameras².

ONVIF® Compliant

ONVIF Profile S, T, G, and M compliance allows easy integration with existing ONVIF infrastructures.

Next-Generation Video Analytics

Detects more people with greater accuracy, even in crowded scenes, to support faster responses.

Water & Impact Rated³

IP66/67 rating for water resistance and IK10 impact rating for vandal resistance.

Wide Dynamic Range

Captures details in scenes with both very bright and very dark areas.

Adaptive IR Technology³

Provides optimal brightness in scenes with low-light for high-resolution image detail.

Audio Recording Capabilities

Built-in microphone offers an optional audio recording capability for additional evidentiary detail.

Analytics Specifications

Supported Analytics Events ¹	
Objects in Area	The event is triggered when the selected object type moves into the region of interest.
Object Loitering	The event is triggered when the selected object type moves into the region of interest and then stays for an extended amount of time.
Objects Crossing Beam	The event is triggered when the specified number of objects have crossed the directional beam that is configured over the camera's field of view. The beam can be unidirectional or bidirectional.
Object Appears or Enters Area	The event is triggered by each object that enters the region of interest. This event can be used to count objects.
Object Not Present in Area	The event is triggered when no objects are present in the region of interest.
Objects Enter Area	The event is triggered when the specified number of objects have entered the region of interest.
Objects Leave Area	The event is triggered when the specified number of objects have left the region of interest.
Object Stops in Area	The event is triggered when an object moves into a region of interest and then stops moving for the specified threshold time.
Direction Violated	The event is triggered when an object moves in the prohibited direction of travel.
Tamper Detection	The event is triggered when the scene unexpectedly changes.

Supported Classified Object Types ¹	
Object Types	Person

¹ Analytics are supported when the camera is installed in the ceiling-mounted orientation mode. There is an analytics blind spot in the middle 20% of the fisheye field of view. Objects will be detected moving in and out of the blind spot, but will not be detected when they are inside the blind spot.

Avigilon Control Center (ACC) Versions Supported Features	
ACC Version 6.14.24 or higher	H.265 supported. Fisheye dewarping is not supported on ACC versions earlier than 6.14.24. Analytics are only supported on ACC 7 systems.
ACC Version 7.12.4 or higher	All supported analytic events with people as classified objects. H.265 supported. Fisheye dewarping is not supported on ACC versions earlier than 7.12.2.

AVIGILON™

H6A and H6X Dome Cameras

Flexibility And Compliance At Your Fingertips

The Avigilon **H6A camera line** elevates your situational awareness to new heights by combining onboard video analytics with audio analytics. It comes with a built-in mic to alert you of auditory disturbances, allowing you to not only see, but also hear what's happening. If you need to meet certain privacy and/or cybersecurity requirements, the AI-powered **H6X camera line** has been designed with no built-in mic nor wireless technology for easy compliance. See farther distances and secure more ground with the **dome** form factor that's available on both camera lines.

AdaptAI VideoAnalytics

Be a step ahead of incidents with the camera's ability to flag unusual crowds or a person crawling under a fence. Classify more objects such as a commercial van, pick-up truck or box truck with analytics event support.

Outdoor Ready Design

Safeguard the outdoors with the bullet's exceptionally tough exterior that is rated IK10/11, IP66/67 and NEMA Type 4X² to withstand impact, water, corrosion and more.

Audio Analytics & Recording

Expand your awareness with alerts for gunshots¹, breaking glass, screaming and more. Review video from the triggering camera to investigate the sound. Have the option to record audio when you need it.

Low-Light Clarity

Never miss a moment in low-light or completely dark conditions with IR illumination built into the bullet camera. Achieve 24/7 visibility of your site at all times.

Dynamic Privacy Masking

Easily meet privacy requirements with the ability to track and blur people and vehicles appearing in video, but have the flexibility for authorized personnel to lift it during investigations.

Secure & Compliant

Trust that your data is well-protected with advanced cybersecurity features such as an onboard FIPS 140-2 level 3 compliant TPM and Secure Boot.

¹ Separate license required.

² Environmental ratings will vary by models.

Analytics Specifications

Supported Analytics Events	
Objects in Area	The event is triggered when the selected object type moves into the region of interest. This event can be used to count objects.
Object Loitering	The event is triggered when the selected object type moves into the region of interest and then stays for an extended amount of time.
Objects Crossing Beam	The event is triggered when the specified number of objects have crossed the directional beam that is configured over the camera's field of view. The beam can be unidirectional or bidirectional.
Object Appears or Enters Area	The event is triggered by each object that enters the region of interest.
Object Not Present in Area	The event is triggered when no objects are present in the region of interest.
Objects Enter Area	The event is triggered when the specified number of objects have entered the region of interest.
Objects Leave Area	The event is triggered when the specified number of objects have left the region of interest.
Object Stops in Area	The event is triggered when an object moves into a region of interest and then stops moving for the specified threshold time.
Direction Violated	The event is triggered when an object moves in the prohibited direction of travel.
Smart Motion Rule	Events are sent for person (including crawling) and vehicle present, against default unchangeable parameters
Tamper Detection	The event is triggered when the scene unexpectedly changes.
Crowd Size	This event is triggered when the number of people is exceeded over a configurable duration.
Unusual Crowd Growth	This event is triggered when a crowd size grows unexpectedly.
Unusual Crowd Size	This event is triggered when an unusual crowd size is detected.
Analytics capabilities, including detection range, may vary by camera line. Please consult the Avigilon Self-Learning Video Analytics Design Guide for details	
Supported Classified Object Types	
Object Types in Outdoor Mode	Vehicle, sub-types: Car, Pickup Truck, Large Truck, Van, Bicycle, Motorcycle, Bus Person
Object Types in Indoor Mode	Person
Teach by Example	
Teach By Example	Yes, when used with Avigilon Control Center™ or Avigilon Unity Video

Supported Audio Analytics Events

Gunshot ¹	Up to 100 meters
Scream	Up to 15 meters
Glass Break	Up to 15 meters
Car Alarm	Up to 30 meters
Smoke Alarm	Up to 15 meters
Dog Bark	Up to 15 meters
Tire Screech ²	Up to 15 meters
Loud Noise	Up to 40 meters
Ultrasonic Panic Alarm ³	Up to 40 meters

¹ Optional add-on license required.

² The detection range is limited to up to 8 meters in loud environments.

³ The detection range is influenced by the quality and power of the device used to create the panic alarm.

Avigilon Software Supported Features

Avigilon Unity Video 8.0 or higher	All supported analytic events with people and vehicles and all vehicle sub-types as classified objects. Appearance search when paired with appropriate server hardware. Unusual Activity Detection. H.265 supported. Audio analytics. Crowd analytics. Classified object privacy masking.
ACC Version 7.2 or higher	All supported analytic events with people and vehicles as classified objects. Appearance search when paired with appropriate server hardware. Unusual Activity Detection. H.265 supported.

H5A CORNER CAMERA 2.3 MM FIXED LENS

3 MP

5 MP

The Avigilon H5A Corner camera is an anti-ligature, no-grip and IK10+ impact-rated solution that is purpose-built to withstand the harshest attempts to destroy, detach, attach to or disable it. As an Avigilon H5 platform camera, the H5A Corner camera is embedded with Next-Generation Video Analytics for enhanced object detection and classification, Unusual Activity Detection (UAD), along with support for Facial Recognition technology and Avigilon Appearance Search™ technology to help ensure critical events do not go unnoticed.

FEATURES

NEXT-GENERATION VIDEO ANALYTICS

Detects more objects with expanded object classification and greater accuracy for faster responses, even in crowded scenes.

H.264 AND H.265 WITH HDSM SMARTCODEC™ TECHNOLOGY

Optimizes compression levels for regions in a scene to help maximize bandwidth savings and keep internet connectivity costs down.

FIPS 140-2 COMPLIANT

Brings increased data security with FIPS-compliant cryptography enabled on cameras¹.

ONVIF® COMPLIANT

ONVIF Profile S, T, G, and M compliance allows easy integration with existing ONVIF infrastructures.

AUDIO RECORDING CAPABILITIES

Records audio evidence via a built-in microphone that can be disabled if desired.

EASY TO CLEAN & REPAIR

Stainless steel variant and water-resistant design makes it easy to clean. Part replacements are simple using conventional tools without having to remove the entire camera, minimizing downtime.

WATER, IMPACT & ENCLOSURE RATED

IP67 rating for water resistance, IK10+ impact rating for vandal resistance and NEMA 4X enclosure rating² for windblown dust, water (e.g. rain, hose-directed water) and corrosion resistance.

EXTENDED TEMPERATURE RANGE

Continuously records between -40 °C to 55 °C (-40 °F to 131 °F).

INVISIBLE IR LED LIGHT

Ensures there is no visible glow to disturb the subject being monitored or notify them that the camera is on.

LIGHTCATCHER™ TECHNOLOGY

Offers excellent image detail in low-light settings.

ONVIF is a trademark of Onvif, Inc.

¹ Optional purchase of FIPS Level 1 camera license.

² NEMA 4X rating only applies to the stainless steel variant.
