Dispatch update

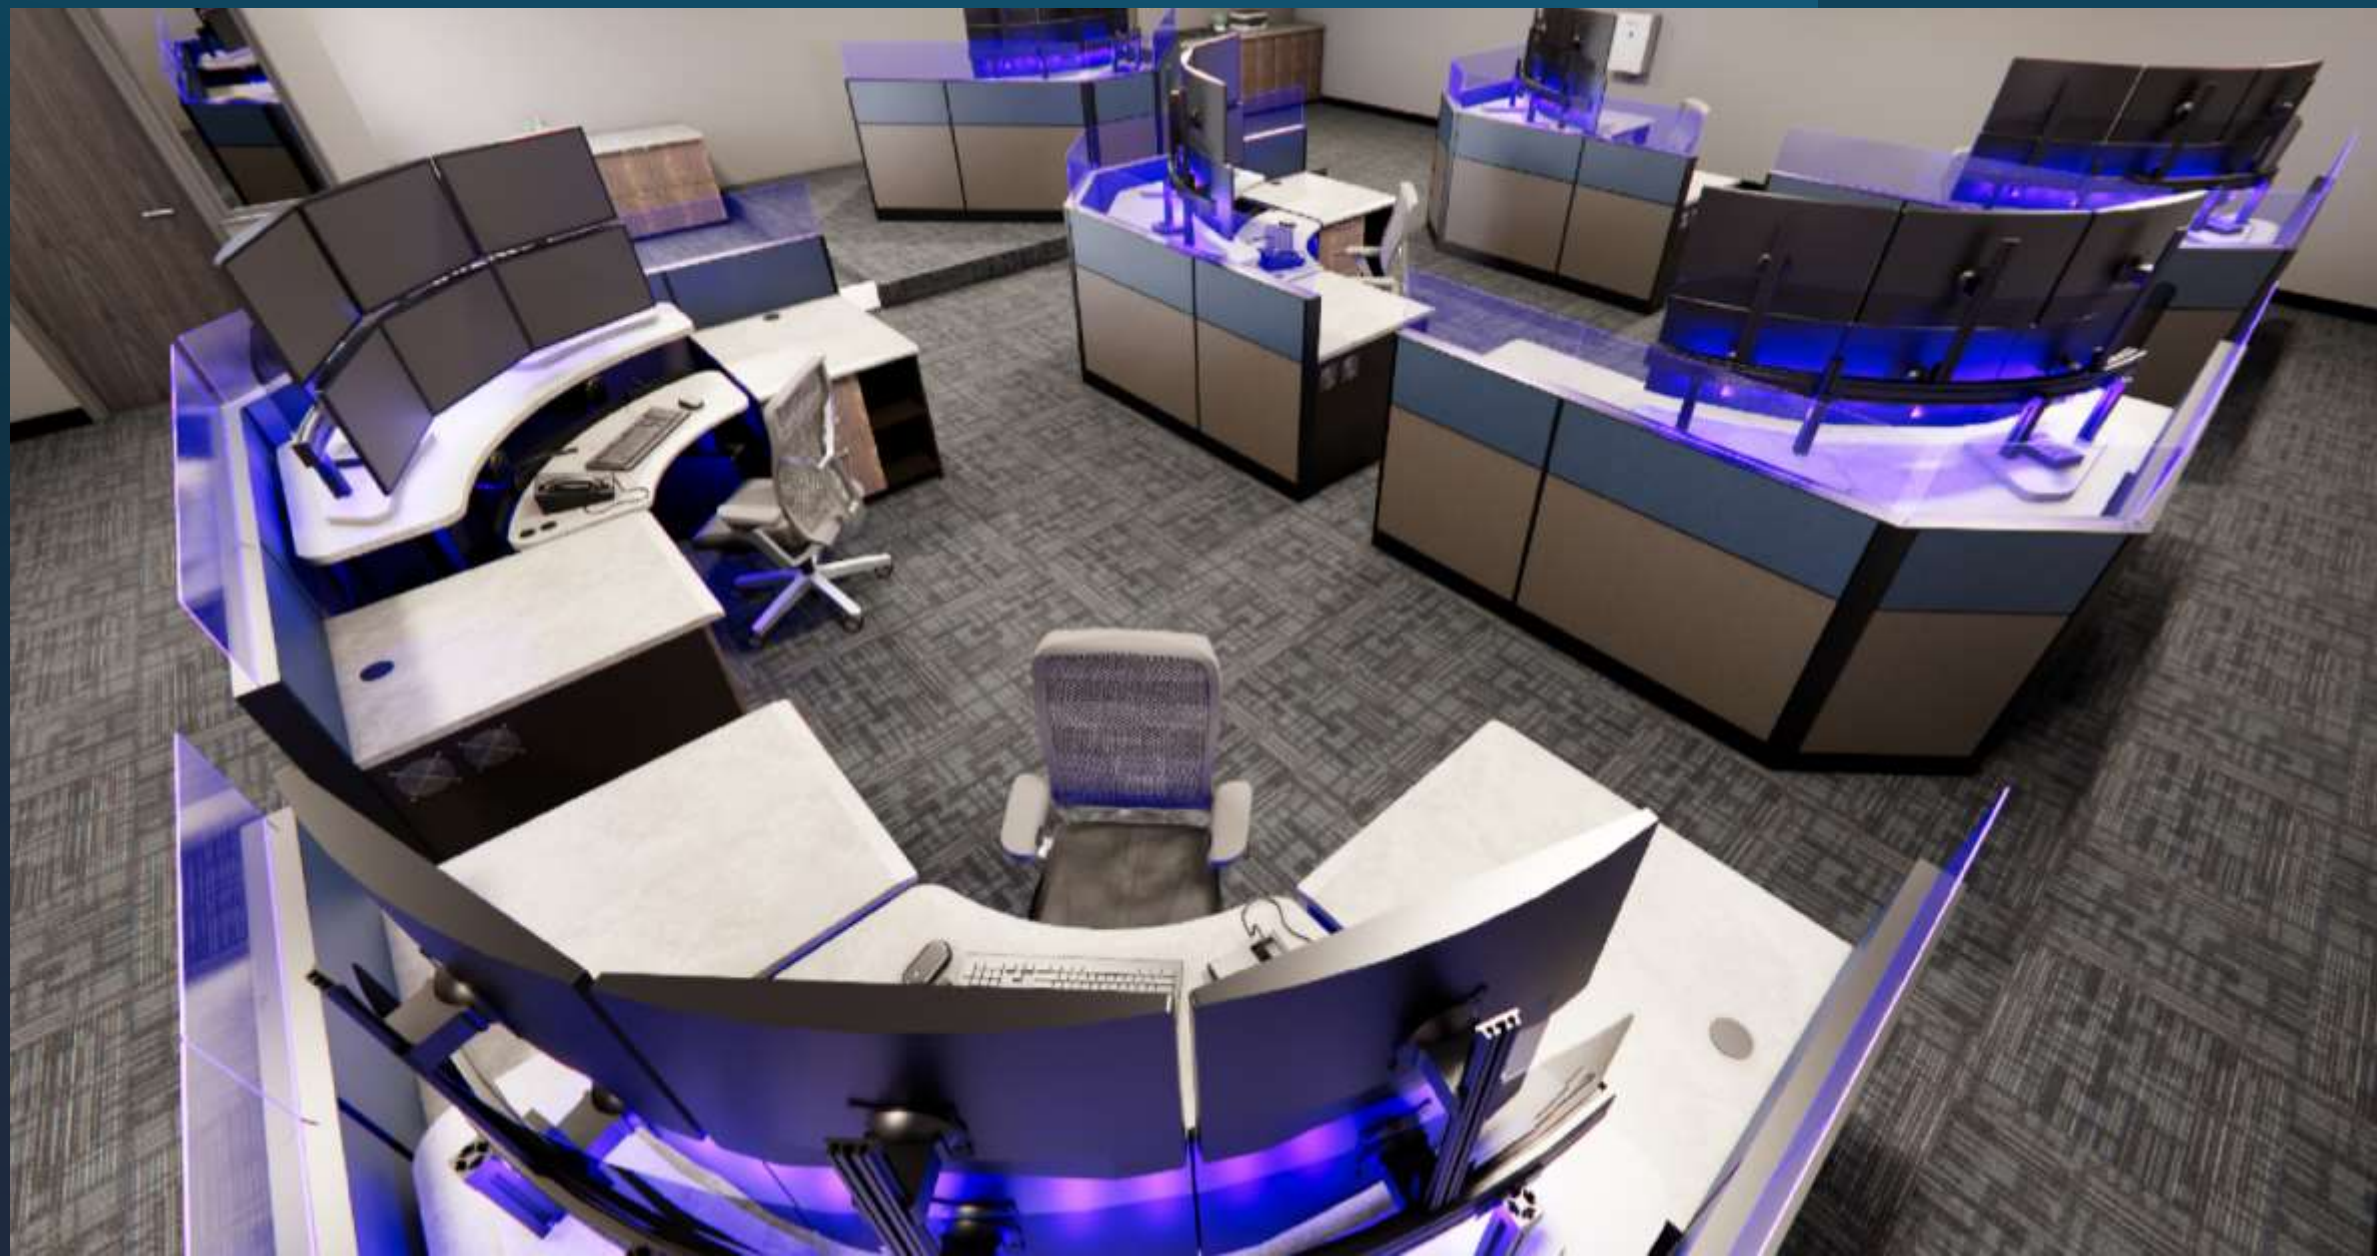

We are excited to share that we have officially selected Xybix as our new console vendor. This marks the beginning of a major step forward in creating a more comfortable, efficient, and modern workspace for you, featuring state-of-the-art technology designed to support your work at the highest level.

Attached are a few renderings to give you a glimpse of what's to come. Take a look and imagine the possibilities. Your feedback and ideas are welcome as we move toward bringing this vision to life.

Xybix dispatch consoles offer a range of features focused on ergonomics, customization, and integration, designed to enhance worker health and productivity in mission-critical environments. Key features include:

Sit-to-Stand Functionality:

Adjustable height ranges (22"-48") to accommodate users of all sizes and promote healthy posture.

Rollervision™:

A patented technology for easy and efficient monitor array adjustment, allowing users to quickly find the optimal focal depth.

AXYS System:

A customizable control center for managing desk height, monitor positions, lighting, and climate control through a user's PC, iOS, or Android device.

Customizable Lighting:

Options for task lighting, bias lighting, and panel lighting, with color and brightness adjustments available.

Personal Climate Control:

Features like personal fans and temperature control settings to enhance individual comfort.

Acoustic Panels:

Noise-reducing panels to minimize distractions and improve focus.

Dual-Surface Workstations:

The Future is Here

Together, we're creating a workspace built for comfort, efficiency, and excellence.

Thank you for being part of this exciting new chapter.
