

Staff Report**Subject:** Terracon Master Services Agreement**Author:** Jonathan Hulme, PE County Engineer**Department:** Engineering**Meeting Date:** May 6th, 2025**Item Description:** Terracon Master Services Agreement**Summary Recommendation:** Staff recommends Terracon Master Services Agreement**Executive Summary/Background:**

Approving a geotechnical engineering on-call for the road project ensures timely evaluation of soil and subsurface conditions, which is critical for designing safe, stable roadways. It helps address issues like settlement, drainage, and slope stability early—reducing delays, avoiding costly redesigns, and supporting long-term performance of the road. This will also allow us to access existing infrastructure in a timely manner to help with improving roads for the fast growing county.

Alternatives for Commission to Consider

1. Approve the contract with Terracon
2. Do not approve the contract

Recommended Alternative: 1**Other Alternatives: 2****Department Review:** County Attorney and County Manager**Funding Source:** TSPLOST**Attachments:** Master Services Agreement
