*Price quotation does not include sales tax. These amounts will be added to the invoice amount as applicable.*

**Other Conditions of Sale:**

**Quote Expires in 90 Days**

Installation to be provided by QRS to customer installed RJ21X or 66 Block

Customer's radio, telephone, CAD and mapping vendors should provide the proper inputs identified and terminated within 6 feet of the recorder's physical location prior to installation by QRS. Additional charges may apply if the VoIP codec is anything other than G.711 PCM codec. Audio needs to be unencrypted

Service if needed may be obtained by calling (877) 733-7771 ext. 2

Equipment will be ordered and installed 30 days ARO unless agreed upon other wise, in which a written letter with requested install date will be required

Payment terms are net 30 days from invoice / installation

Customer is responsible for insuring the necessary 3rd party licensing, installation, and integration work is completed by its other vendors.

If the end user is not ready for the installation on the agreed upon date, the system will be shipped to end user and an invoice will be sent for 50% of total purchase price. Upon completion of the install and training, the remaining balance will be invoiced.

**Subject:** EXTERNAL:Eventide AIS Interface Upgrade  
**Attachments:** Effingham 911 GA AIS Upgrade Quote 1-3-24.pdf

Jay,

I hope you enjoyed the Holidays and your new year is off to a good start.

I apologize for the short notice, but I was just informed that Motorola is upgrading the SEGARRN core to version 2021.1 this month. You may recall that there are license fees associated with upgrading the interface between the AIS and the Eventide recorder each time the radio core is upgraded. I try to find out as early as possible about these upgrades so the quotes are not such a surprise, but that was not the case this time around as I am just now finding out about the radio upgrade.

I am in contact with Motorola to get dates on when each site will be upgraded, so I can make sure my team will be ready.

We need this turned around pretty quickly so we can get the licenses from Motorola and Eventide since they are planning to start the upgrades next week.

Moving forward, I think your core gets upgraded every 2 to 3 years so you can plan for this upgrade cost in the future.

Let me know if you have any questions. Have a great day.

Best regards,

**Alex Spencer**
