Neighbor whom we share a driveway with runs a residential business and properties behind ours have farm animals.

Describe how your rezoning proposal will allow a use that is suitable in view of the uses and development of adjacent and nearby property?*

This would allow us to operate a business out of our shop instead of our attached garage which we were doing but it became too small.

Will the proposed zoning change result in a use of the property, which could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools?*

No, all buildings and access are existing and no excess traffic would be created.
