~~5.9.4 Lot and building requirements.~~

~~5.10.1 Intent.~~ The Neighborhood-Business District (B-1) is intended to accommodate small-scale commercial uses that primarily serve the daily needs of nearby residential areas. These businesses provide convenient shopping, dining, and personal services that enhance the livability of surrounding neighborhoods without generating excessive traffic, noise, or other disruptions. Due to their close proximity to residences, businesses within this district are expected to operate at a low-intensity level, maintaining a scale and character that harmonizes with adjacent residential development. Design and site standards emphasize compatibility with the neighborhood, encouraging pedestrian-friendly environments, attractive landscaping, and architectural styles that blend with residential surroundings. Public service demands, including infrastructure, utilities, and transportation impacts, remain minimal, ensuring that the district supports economic activity without overburdening community resources.

Refer to Article V, Table of Permitted Uses (TPU)

Any use that is not explicitly addressed in the TPU is prohibited; however, the applicant may request a text amendment and follow the process for getting approval of the use.

Refer to Article III, 3.4 for the required buffers for the B-1 zoning district.

5.11.1 Intent. The General Business District (B-2) is intended to accommodate a broad range of commercial activities that provide both durable and convenience goods to the community. This district serves as a commercial hub, offering essential goods, professional services, and shopping opportunities that support residents, businesses, and visitors alike. Strategically located along major and minor thoroughfares, ensuring high visibility and accessibility for consumers across the entire community. Their placement along well-traveled corridors allows for efficient traffic flow and convenient access while minimizing unnecessary congestion within residential neighborhoods. Due to the larger scale and increased activity levels associated with general business uses, site design standards emphasize buffering, landscaping, and architectural compatibility to mitigate potential impacts on adjacent businesses and residential areas. Properly designed setbacks, screening, and traffic management measures help reduce noise, light intrusion, and operational disruptions, ensuring a harmonious relationship between commercial and non-commercial land uses. Fostering economic growth while maintaining a well-planned, community-oriented commercial environment.

Refer to Article V, Table of Permitted Uses (TPU)

Any use that is not explicitly addressed in the TPU is prohibited; however, the applicant may request a text amendment and follow the process for getting approval of the use.

Refer to Article III, 3.4 for the required buffers for the B-2 zoning district.

5.12.1 Intent. The Major Commercial District (B-3) is intended to accommodate a diverse mix of commercial activities that provide both durable and convenience goods to the broader community. This district supports businesses that benefit from high visibility, easy access, and steady vehicular traffic, making it ideal for commercial uses that cater to both local residents and travelers. Strategically located along major and minor thoroughfares, ensuring direct access to well-traveled roadways and key transportation corridors. Their placement allows for the efficient movement of goods and services while minimizing disruptions to local streets and residential areas. Given the potential for increased traffic volumes and commercial activity, site design standards prioritize buffering,

landscaping, and access management to mitigate impacts on adjacent properties. Proper setbacks, screening, and traffic control measures help reduce noise, glare, and congestion, ensuring a smooth transition between commercial corridors and nearby residential or lower intensity uses. Playing a vital role in supporting regional commerce, economic growth, and job creation while maintaining a balance between accessibility, functionality, and community character.
