

Staff Report

Author: Kimberly Barlett, Senior Planner
Department: Development Services
Subject: Conditional Use
Meeting Date: April 21, 2026
Application: CU-26-13

Existing Zoning: AR-2 (Agricultural–Residential; 1 acre or more)

Map & Parcel: 369A-46

Parcel Size: 0.83 acres

Applicant: Robbie Brannen
203 Eagle Court
Springfield, GA 31329

Owner(s): Daniel Angel Floriano-Cano and Robbie Brannen
203 Eagle Court
Springfield, GA 31329

Commissioner District: Fourth District

Location: 203 Eagle Court
Springfield, GA 31329

Existing Land Use and Zoning:

The subject parcel is located at **203 Eagle Court**, in the Forest Hills subdivision, and contains one mobile home, as identified in the Effingham County Tax Assessor’s database. Access to the property is provided from Eagle Court.

The parcel is zoned AR-2 (Agricultural–Residential; 1 acre or more). Surrounding properties are similarly zoned and developed in a rural residential pattern characterized by large lots, low-density housing, and agricultural land uses.

Surrounding zoning classifications include:

- **North:** AR-1 (Agricultural Residential)
- **South:** AR-2 (Agricultural–Residential; 1 acre or more)

- **East:** AR-2 (Agricultural–Residential; 1 acre or more)
- **West:** AR-2 (Agricultural–Residential; 1 acre or more) & I-1 (Industrial)

Project Summary/Proposed Request:

The applicant is requesting approval of a **Conditional Use** to operate a home-based florist business within an accessory structure located on a 0.83-acre parcel.

The applicant currently operates a florist business from the residence and is seeking authorization to allow limited on-site customer visits for order consultations. Business activities include processing flowers and creating custom floral arrangements. Products offered for sale include plants, fresh flowers, candles, and occasion-related gifts.

Current operations primarily consist of delivery services, with some orders fulfilled through third-party pickup services such as DoorDash. Proposed hours of operation are Monday through Sunday, from 9:00 a.m. to 6:00 p.m.

Parking will be accommodated on-site within the front yard and driveway, with space available for approximately two to three vehicles at any given time.

 (912) 754-2128
 effinghamcounty.org

The applicant indicated that a small number of plants are grown on-site; however, approximately 99% of inventory is sourced from wholesale suppliers, with deliveries occurring once per week.

The business will be owner-operated, with minimal customer traffic anticipated—estimated at a maximum of approximately 10 clients per week. Customer consultations will take place within the proposed accessory structure, which will include a cooler for bouquet display.

Facts and Findings:

Site Characteristics

The subject parcel contains **0.83 acres** and includes one existing mobile home, with access from Eagle Court. The parcel is rural in character and contains known **wetlands, with no known floodplain or environmental constraints** based on County GIS mapping.

Surrounding Development Pattern

The area surrounding the parcel consists primarily of rural residential homesteads and agricultural tracts. Development intensity remains low, with lot sizes of 0.5 acre or more.

Zoning Context

The subject property is zoned AR-2, which permits certain low-intensity non-residential activities through the Conditional Use process. The applicant is proposing to operate a residential business that involves limited customer visits and the use of an accessory structure.

Pursuant to Effingham County Code of Ordinances **Section 4.1A – Permitted Use Table**, residential businesses that involve customer interaction or operation from accessory structures may require Conditional Use approval within the AR-2 district. Therefore, Conditional Use approval is required for the proposed activity.

Infrastructure and Services

The property is served by a **private well and septic**, consistent with surrounding development. Emergency access is adequate via Eagle Court.

Compatibility with the Surrounding Area

The proposed residential business is expected to generate minimal traffic and activity, with the applicant estimating approximately 10 clients per week. The business will be owner-operated with no additional employees.

Given the parcel size (0.83 acres) and the location of the proposed accessory structure on the property, the proposed use is unlikely to create significant visual or operational impacts on adjacent properties.

The surrounding area is characterized by residential tracts and agricultural-residential uses, which provide substantial separation between neighboring properties. Development within the AR-2 district is guided by regulations that promote orderly growth, ensure compatibility with surrounding uses, and maintain the scale and character of single-family communities.

Intensity of Use

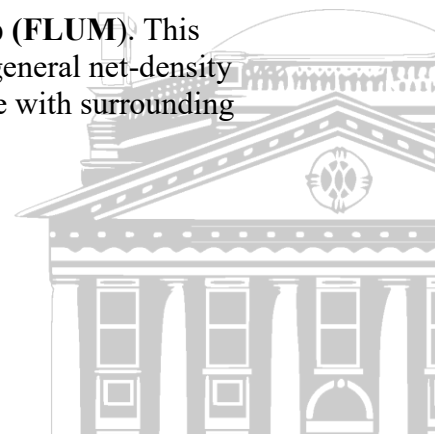

The scale and operational characteristics of the proposed business remain consistent with the rural residential character of the AR-2 district. The proposed accessory structure and limited customer traffic do not represent a level of activity that would substantially alter the existing development pattern of the area.

Comprehensive Plan:

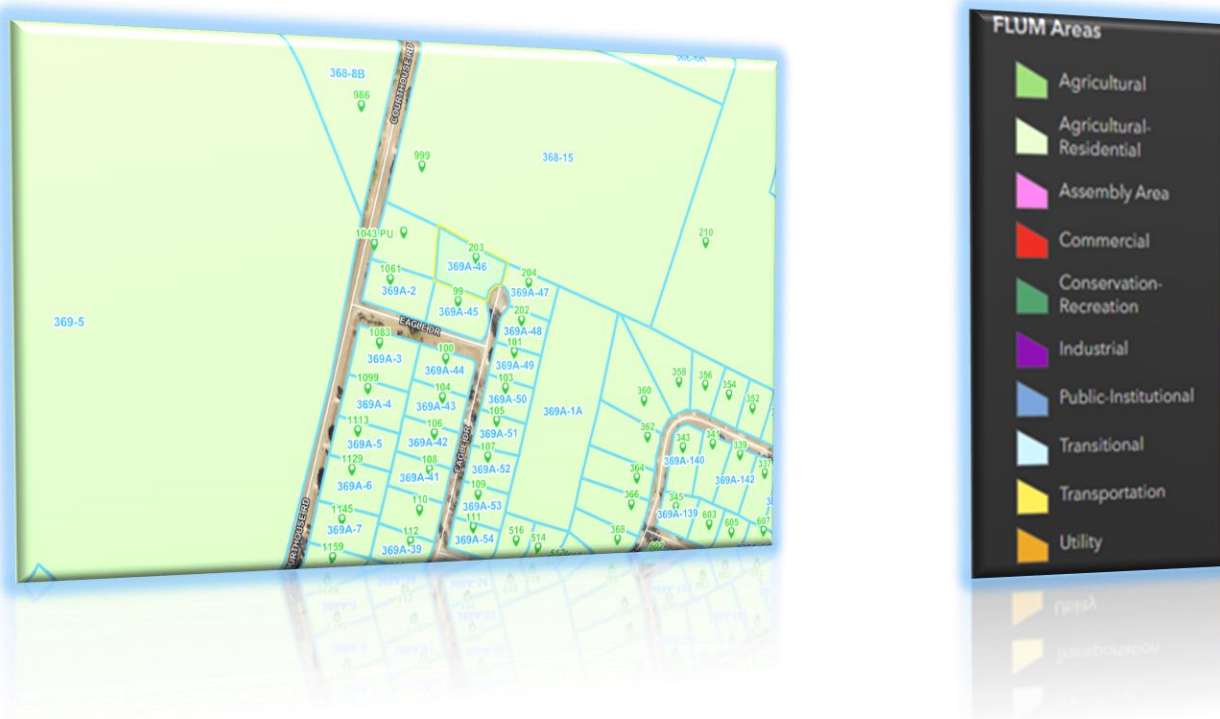

The parcel is designated **Agricultural-Residential** on the **Future Land Use Map (FLUM)**. This category supports single-family and multifamily residential uses arranged within general net-density ranges. The intent is to ensure residential development patterns that are compatible with surrounding

 (912) 754-2128
 effinghamcounty.org

densities, building types, and established neighborhood character (Effingham County 2020–2040 Joint Comprehensive Plan, p. 37).

Recommendation

The proposed use is consistent with the intent of residential business regulations, as it is limited in scale, owner-operated, and compatible with the surrounding residential area. The business is not expected to generate significant traffic, noise, or other impacts that would adversely affect neighboring properties. Customer visits will be limited in frequency, and adequate on-site parking is available to accommodate anticipated demand.

Additionally, the majority of business operations involve off-site deliveries, with only minimal on-site consultation activity. The use of an accessory structure for client meetings further reduces potential impacts on the primary residence and surrounding properties.

Based on these factors, staff finds that the proposed residential business meets the applicable criteria for approval and will not be detrimental to the public health, safety, or welfare, nor injurious to nearby properties.

If approved, the request should be subject to the following stipulations:

1. **An Effingham County Occupational Tax Certificate (business license) shall be obtained and kept in good standing.**

2. **One non-illuminated sign may be allowed** during the specified business hours.
3. **All applicable zoning and development standards must be met**, including but not limited to setbacks, access requirements, and any departmental review standards.
4. **The Conditional Use approval applies only to the **owner-operated residential business as described in the application.** Any expansion of the business, addition of employees, or significant increase in customer traffic may require additional review and approval by Effingham County.
