**APPLICANT'S AGREEMENT  
POTABLE WATER, RECLAIM WATER AND WASTEWATER**

This Agreement is made and entered into effective this 16th \_\_\_\_\_ day of July \_\_\_\_\_, 2026 by and between THE CITY OF EUSTIS, FLORIDA, a Florida Municipal Corporation (hereinafter referred to as "City" or "Utility") and DENNIS K MARTIN, PROPERTY OWNER, and their successors and assigns (hereinafter referred to as "Applicant").

**WITNESSETH**

**WHEREAS**, Applicant is the fee simple owner of approximately 0.16 acres of real property situated in Lake County, Florida, described with particularity in Exhibit "A" attached hereto and made a part hereof, which property is hereinafter referred to as the "Property"; and

**WHEREAS**, the Property is currently vacant with a single-family residence under construction. The Applicant intends to connect the proposed structure to City water. This property requires one (1) equivalent residential dwelling unit "ERUs" requiring central potable water (hereinafter referred to as the Development); and

**WHEREAS**, Utility is the owner and operator of potable water production and distribution facilities ("Water Facilities"); and

**WHEREAS**, Applicant has requested connection to said Water Facilities and that the Utility allocate and reserve sufficient capacity in these facilities to serve and sustain the operation of the Development; and

**WHEREAS**, the Utility has potable water available in close proximity to the property; and

**WHEREAS**, Utility has determined that it will have sufficient capacity in the Water Facilities to serve and sustain the operation of the Development for forty years after the date of this Utility Agreement; and,

**WHEREAS**, Utility has agreed to make its potable water service available to the Development by means of connection to and use of the Water Facilities on the terms and conditions hereinafter set forth.

**NOW THEREFORE**, in consideration of the foregoing which is incorporated herein and other good and valuable consideration, the receipt of which is acknowledged by the parties, Applicant and Utility agree as follows:

1. **EXCLUSIVE SERVICE TO THE PROPERTY.** Applicant hereby agrees and covenants that the Development shall be served exclusively by Utility's Water Facilities. Applicant further agrees that this Agreement shall be a covenant binding upon and running with title to the Property. Utility hereby agrees to make potable water services available to the Development hereafter constructed on the Property for the rates and under the conditions set forth in this Agreement. Utility agrees that such services shall be made available through Utility's existing Water Facilities so long as Utility is not prevented by law or governmental regulation from providing such water service for any reason. Utility represents and warrants that it has sufficient capacity in its Water Facilities to serve the Development. Utility further agrees that the potable water service to be provided hereunder shall meet the current standards or requirements, as the case may be, of all state, local, and federal governmental agencies having jurisdiction over Utility; provided, however, that Utility shall not be responsible for any failure to meet or comply with said

standards or requirements to the extent that such failure shall be occasioned by defect in the construction of any facilities constructed by Applicant; and further, the acceptance of any such facilities by Utility shall not be an admission of, or acceptance of such responsibility. Utility hereby agrees to provide water services to the written request for such service to Utility. Both parties acknowledge that the Applicant shall be responsible for all off-site or on-site improvements necessary to connect the Development to the City's water lines adjacent to the Property.

**2. PAYMENT BY DEVELOPER OF CITY OF EUSTIS WATER IMPACT FEES.**

A. The Applicant shall be responsible for payment of the Utility's water impact fees for water volumes reserved under this agreement. Utility's water impact fee is \$854.00 per equivalent residential dwelling unit (ERU). Payment of said fee shall be made at time of building permit submittal for a water meter as follows:

1 Single-family dwelling unit X \$854.00= \$854

0 Amenity units X \$854.00 = \$0

TOTAL POTABLE WATER \$854

**3. IMPROVEMENTS.** In order to provide potable water services, certain improvements will need to be constructed.

A. **OFF-SITE IMPROVEMENTS.** Applicant agrees to construct and to transfer ownership and control to the Utility as a contribution-in-aid-of-construction any necessary off-site installations of improvements from Developer's Property to the Utility's existing Water Facilities. Developer shall install all of the offsite installations at its sole expense and in accordance with the plans, specifications and other pertinent documents approved by the Utility and the County, except that in no event shall Applicant be required to oversize lines to the benefit of others' properties without prior agreement for reimbursement on behalf of such other properties.

**B. ON-SITE IMPROVEMENTS.** The Applicant, at its expense and without cost or expense to the City, will design, permit, and construct all on-site improvements associated with water service in accordance with the City's regulations. Nothing herein, however, shall relieve the Applicant of the responsibility of obtaining and complying with any permit or approval necessary from any regional, state, or national governmental authority, as required by law. When the Property is developed, The Applicant shall construct and install therein, at its own cost and expense, any applicable meters and service connections necessary to serve the Development.

4. **RATES AND CHARGES.** The rates to be charged by Utility for water service to the Development hereafter built on the Property shall be those rates and charges made by Utility to its customers which are from time to time approved by the Eustis City Commission or by any other governmental regulatory body from time to time having jurisdiction over such matters. Utility reserves the right to withhold or disconnect service to any active customer, or to refuse to give or provide new or additional services to any active customer, at any time the charges are not paid on a current basis within twenty-five (25) days after the same are billed , provided that written notification of such delinquency has been made by Utility to such customer; and provided that the failure of an active customer to pay sums due Utility shall not affect Applicant's rights under this Agreement. Moreover, the service to the Development shall be subject to such other regulations from time to time lawfully imposed on Utility with respect to the operations of its water systems, and except as limited by such regulations, the amounts of utility deposits, billing practices and times, liability for damage to Utility's property and rate changes shall be exclusively within the discretion and control of Utility.

5. **WATER METERS.** It is hereby agreed by the parties hereto that water meters shall be installed as Utility shall deem to be necessary to serve the Development. Utility shall have the right to designate the number, type, quality and size of said meters. The cost for said water meters and the labor charges associated with their installation shall be paid to Utility by Developer prior to installation of each such

meter. Said sum shall be due and payable prior to the time of installations of said meters. All water meters so installed shall remain the property of Utility.

6. **MANDATORY ANNEXATION.** Pursuant to the Annexation Agreement adopted by Resolution Number 25-20, the Applicant has petitioned for voluntary annexation of the Property; said agreement binds future property owners to the terms and conditions contained therein.
7. **AGREEMENT BINDING ON SUCCESSORS IN TITLE.** Applicant agrees that this Agreement shall be a covenant binding upon and running with title to the Property, and any successor owner of the Property shall be obligated to adhere to the terms and conditions of this Property. Utility agrees that any successor in title to the Property shall enjoy all the rights, obligations, and privileges provided in this Agreement.
8. **WATER CONSERVATION.** The Applicant agrees to employ water conservation measures in development of the property. To encourage potable water conservation and adherence to all current requirements upon the property, such measures shall include, but not be limited to:
  - a. Installation of low flush toilets which utilize 1.6 gallons or less per flushing cycle.
  - b. Installation of shower heads which have flow restrictors, pulsating features, flow control devices or other features which result in water conservation; and do not allow a flow exceeding 2.5 gallons per minute at 60 psi.
  - c. No swimming pool filter backwash water, or any other swimming pool wastewater shall be discharged to the sanitary sewer system.
  - d. Installation of spring-loaded/automatic shutoff fixtures in all public restrooms, including lavatory fixtures.
9. **SALE TO GOVERNMENTAL ENTITY.** In the event Utility shall hereafter sell the utility facilities, or any part thereof serving the Property, to the State of Florida, Lake County or a duly constituted municipality, or any agency or entity under such State's, County or municipality's control, supervision or direction, Applicant agrees

that with respect to potable water service to the Property, the rules and regulations of such purchaser, and not the provisions of this contract, shall control, and that, upon assignment of this Agreement to the Purchaser, Utility shall be relieved of all further obligations hereunder pertaining to the provision of potable water service, provided that potable water services to the Development are not diminished or reduced in any way. Notwithstanding the foregoing, Utility shall be required to uphold the terms and conditions related to all land use matters set forth herein.
