¹ Open Spaces are reserved for active or passive recreation, and for the preservation of land in its natural state. Building on, or modification of, land in Open Space districts is generally prohibited except where incidental to a larger purpose of preserving and enhancing Open Space areas; or, where necessary for public health and safety purposes. The only exception is the category in Table 4.2 described as “Parks, greens, plazas, squares, and playgrounds.” These uses are allowed in Open Space districts, provided that vertical construction is kept to a minimum and, in the opinion of the City Manager, the primary purpose of the land use is not to provide for activity intended for other districts nor to otherwise circumvent this provision and the intent of this zoning UDC and the Comprehensive Plan of Fair Oaks Ranch.

P* - Permitted as part of a mixed use development that contains both residential and nonresidential components within a single unified development. The residential component shall not exceed thirty (30) percent of the total area (square feet) of the land uses in the entire single unified development or lot as applicable. A single unified development shall be considered as the area/lots shown on an approved Concept Plan, if no concept plan exists then this maximum residential component percentage shall be calculated per lot. The total area of the land uses in a development calculation shall include the gross area inside all buildings and any outdoor areas associated with land uses (i.e. outdoor dining areas).
