Councilwoman Kent inquired on when the City will be enforcing these codes.

Deputy City Attorney Jaren Stanton stated that if they are adopted today, we have to publish them in the newspaper. Our actual enactment date would be in approximately 2 weeks. Derek is prepared to send out letters to all the building officials within our jurisdiction and let them know that we are having a 6-month period, in which we allow them to come to compliance. July 1, 2026, we will be in full enforcement.

Councilwoman Kent inquired on building codes reverting to older codes.

City Engineer Derek Zimney stated that we have seen a few examples in the energy and electric codes, where they change the code, and go back to the way things were, over time. The codes are always evolving and being evaluated. These are international codes, not just Nevada.

There is always a possibility that things could change back, certainly.

Councilman Harmon inquired if changes revert, if it then has to be brought back to the Council for approval.

City Engineer Derek Zimney stated that we would enforce the codes, as they are, for the 4 years. They would come back to Council after the 4 years.

Deputy City Attorney Jaren Stanton stated that the bill has been approved by Churchill County. These bills will be handled exactly the same way.

Councilman Harmon inquired on Fire Marshal Brad Dolan's recent trainings. Do your recent training courses cover these new codes.

Fire Marshal Brad Dolan greeted the Council. I believe things are always evolving, like Derek talked about. We don't have as many things change as rapidly as the other codes. The lithium battery thing is probably the biggest item that has been added into the code book, this year. We were looking forward to these chapters. It is just based on storage and all the things that you wonder about how to deal with. Otherwise, it is similar for us. If something changes, it will be in the next book in 4 years. Training is always evolving, just like the codes are. I feel like we are up to date now and moving forward. The County is already running with the new codes. I believe we are good and moving in the right direction.

Council and Staff Reports

Mayor Tedford inquired if there were any Council or staff reports.

Councilwoman Frost congratulated the Fallon Greenwave football team on their recent state championship. That is quite an accomplishment. Our own Trent deBraga is the Defensive Coordinator. I was sitting by my radio, listening, during the whole game. I was nervous during the whole game because it was a close game, and a great game. Congratulations to the football team. I am also looking forward to all the events that are scheduled for this weekend. I know that it has been a very busy time for City Staff, Public Works, and everyone that has put in all the effort to make our City look beautiful. Thank you for all your efforts.

Councilman Harmon agreed with Councilwoman Frost. The town is really starting to look really great. Friday is probably one of our biggest days of the year, and you have all done such a tremendous job getting everything ready. The tree, the lights over the streets, and all the wreaths. I appreciate the effort during this time. Friday, Maine Street will be jam-packed, and everyone looks forward to this time of year, and especially the Christmas Tree Lighting. It is such a huge event for Fallon. Thank you for everything you do for that.

Mayor Tedford echoed the council members' comments. I see all the work going on around here and the citizens love it because Christmas here is very special. I have a lot of friends that come from Reno for the Christmas Tree Lighting. They appreciate it too. I was in the stands during the State game and Trent really kept his patience and remained calm during the whole game. He never got excited, one time, he was just as calm as he sits here, today. What an honor for them to win the championship. That was great.

No further reports were noted.
