Re: Aerial Mosquito Control Operations

To: Flagler County Local Governments:

Each year we request, in compliance with Federal Aviation Administration Regulation 137.51, authorization to fly over congested areas. As you are aware, the citizens you represent pay for mosquito control services via property taxes to the District and part of those services are operations done by helicopter since 1990. To provide services in a timely fashion, we request signed authorization to extend for one year.

This authorization provided by each local government allows the District to carry out low-level flights, 500 feet and below, over congested areas within their boundaries. The helicopter is the main treatment vehicle of the District and most flights are done to prevent the emergence of saltmarsh mosquitoes, survey breeding areas, and apply adulticides at night when necessary.

The enclosed public notice will be published monthly beginning in March and ending in October and serves to provide ongoing public awareness about aerial operations and further provides contact information.

Please execute both accompanying authorizations (Mayor, Manager, etc.) for both the District and, additionally, on letterhead use the sample letter for the back-up contractor and return to our office no later than April 1, 2025.

Thank you for your prompt attention to this matter.

Sincerely,

Mark Positano

Mark Positano, Director

East Flagler Mosquito Control District
