

Pathway to the restaurant from the car

Pathway to the restaurant from the car

Red brick is perceived as a parking space. We pulled the car forward to show the brick.

Red brick perceived as parking space.

We went back to show that the car does not block the white walkway, but a white car was parked on the actual walkway

My car – Honda Fit- showing it is on the red brick and not the white pathway.

We went back to show that the car does not block the white walkway but a white car was parked on the actual walkway

Two days to go back to take pictures and both times there are vehicles parked on areas not clearly marked as parking spaces.

Two days to go back to take pictures and both times there are vehicles parked on areas not clearly marked as parking spaces.

Only three handicapped parking spaces in town and all three are on the south side. The restaurant is on the north side. It is a long way to hop on one foot using a walker to get from the designated spots (which were taken) to the restaurant.
