RECOMMENDATION / CITY COUNCIL ACTION

Staff respectfully request that the City Council introduce and conduct first reading of Ordinance No. 1313 - An Ordinance of the City of Folsom Adding Section 9.36.220 to the Folsom Municipal Code Pertaining to Host Liability for Fireworks Ordinance Violation.

BACKGROUND / ISSUE

California-approved “Safe and Sane” fireworks are currently allowed in nearly 300 communities across the state, including all communities in Sacramento County. Safe and Sane fireworks (approved by the State of California) are not explosive, not aerially launched, and are tested and approved by the Office of the State Fire Marshal. Fireworks sales/usage, in the City of Folsom, is currently limited to June 28th through July 4th. The discharge of fireworks within the City of Folsom is not permitted except for the use of safe and sane fireworks as allowed by Section 9.36.040 of the Folsom Municipal Code.

POLICY / RULE

The City Council is vested with authority to adopt Ordinances pursuant to Section 2.12 of the Folsom City Charter. Amendments to the Folsom Municipal Code require approval of the City Council.

ANALYSIS

Similar to many cities in the Sacramento region and throughout California, the City of Folsom has seen an increase in the amount of illegal fireworks activity during the 4th of July period, some resulted in injuries and fires. This can become a great risk to public safety as it impacts the number of 911 calls for service resulting in longer response times for other critical emergencies. At the same time placing an increased risk of fire related property loss, personal injury, and death on the community. Fire danger from illegal fireworks to structures and open space vegetation is real and posts clear threat to the public health, safety, and the general welfare of the City's residents and businesses.

Fire investigators in the Folsom Fire Department, together with Folsom police officers, have been tackling illegal fireworks through public education and awareness campaigns. Educational messaging reminding the public of what types of fireworks are permitted, when and where they can be used, and how to safely use them. Structure and vegetation fires caused by firework activities are generally the result of using fireworks that are explosive or aerially launched. These types of fireworks are illegal in California and are often purchased outside the state or obtained via mail order. Officers from the Fire and Police Departments continue to work towards proactively reducing the number of illegal fireworks in Folsom by stopping the sales of illegal fireworks and responding to firework related complaints during the 4th of July holiday and the weeks leading to it.

State law generally requires that a law enforcement officer personally observe the person discharging illegal fireworks prior to issuing a citation; however, educational and enforcement campaigns against setting off illegal fireworks through a social host ordinance has been successfully implemented in many jurisdictions in California such as, for example, Kern County, Redwood City, Pacifica, Rohnert Park, Cloverdale, Arroyo Grande, Lemoore, and Hanford.

The proposed update to the Folsom Municipal Code provides for social host liability for illegal fireworks, allowing fire department, law enforcement, and code enforcement personnel to hold the owner or person in possession of real property, or the host of a gathering on public or private property, responsible for the discharge of illegal fireworks. Persons cited under the proposed social host ordinance can request a hearing per Section 1.09.030 of the Folsom Municipal Code.

This ordinance would improve enforcement capabilities in several ways. Typically, it is not difficult for enforcement officers to identify the specific location an aerial firework originates. The challenge lies in identifying the specific individual user or possessor of the firework. The "Social Host Liability" ordinance greatly simplifies this difficulty and allows an officer to focus on a particular person (or multiple persons) responsible for the property or event. The adoption of this new ordinance accompanied with social media outreach to inform the public of its existence and potential penalties are likely to have a significant impact on reducing illegal fireworks.

The ordinance is crafted in a manner to avoid narrow application to property owners only. It is designed to apply to any person who has the right to use, possess or occupy a public or private property under a lease, permit, license, rental agreement, or contract. Additionally, the ordinance

could be applied to any person who hosts, organizes, supervises, officiates, conducts, or accepts responsibility for a gathering on public or private property. The ordinance does not apply to responsible parties who immediately seek the City's assistance in removing noncompliant individuals.

FINANCIAL IMPACT

This action has minimal impact on the City's General Fund. Both Fire and Police Department personnel costs for enforcement during the 4th of July holiday are reimbursed by the Greater Sacramento Area Fireworks Task Force (GSAFTF) in cooperation with fireworks manufactures. The addition of section 9.36.220 will improve the ability of enforcement officers to administer violations for illegal fireworks used within the City of Folsom.

ENVIRONMENTAL REVIEW

The proposed action is not a project under Section 15061(b)(3) of the California Environmental Quality Act Guidelines, and as such is exempt from environmental review.
