Folsom City Council Staff Report

MEETING DATE:	9/24/2024
AGENDA SECTION:	Consent Calendar
SUBJECT:	Resolution No. 11262 — A Resolution Authorizing the City Manager to Execute an Agreement with Environmental Systems Research Institute, Inc (ESRI) to Renew/Extend Contract for Geographic Information System (GIS) Software
FROM:	Finance Department

RECOMMENDATION / CITY COUNCIL ACTION

The Office of Management and Budget respectfully request the City Council approve Resolution No. 11262 – A Resolution Authorizing the City Manager to Execute an Agreement with Environmental Systems Research Institute, Inc (ESRI) to Renew/Extend Contract for Geographic Information System (GIS) Software.

BACKGROUND / ISSUE

The City has contracted with ESRI for Enterprise GIS software for the past ten years. The current contract with ESRI was awarded for three years, starting in September 2021 based on price, service, technology. The City’s Information Technology staff is constantly striving to find better, more efficient ways to increase employee productivity within a constrained budget environment. ESRI software has been instrumental in assisting City Information Technology staff with providing GIS services to the City and its staff. Staff would like to extend our current software contract for an additional 36 months.

POLICY / RULE

In accordance with Chapter 2.36 of the Folsom Municipal Code, supplies, equipment, services, and construction with a value of \$73,209 or greater shall be awarded by City Council.

ANALYSIS

ESRI's Enterprise GIS Software is used on a daily basis to provide vital mapping services, along with data collection services, to every department throughout the city. This includes Public Safety (Police and Fire), EWR (Environmental Water Resources), Public Works, Community Development, Finance, Library, City Council, City Manager's Office, and Parks and Recreation. Without ESRI software the City would not be able to provide subdivision maps, utility maps such as sewer pipes, water pipes, hydrants, valves, new streets, utility poles, etc. It would not allow us to provide district maps, park maps, surveys, to the general public. ESRI's Enterprise GIS Software has become an essential aspect of day-to-day operations and staff recommends renewing/extending the ESRI contract.

FINANCIAL IMPACT

Sufficient funds for Year 1 of this contract are budgeted and available in the FY 2024-25 General Fund (Fund 010) budget. Funds for Year 2 and Year 3 will be included in subsequent budgets. The annual cost for the ESRI contract is \$64,400 for the next three years, for a total contract amount of \$193,200.

- 9.1** If an Ownership Change increases the cumulative program count beyond the maximum level for this Agreement, Esri reserves the right to increase the Fee or terminate this Agreement and the parties will negotiate a new agreement.
