

## Folsom City Council Staff Report

<b>MEETING DATE:</b>	12/13/2022
<b>AGENDA SECTION:</b>	Consent Calendar
<b>SUBJECT:</b>	Resolution No. 10960 - A Resolution Authorizing the Public Works Department to Install All-Way Stop Sign Control at the Intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center
<b>FROM:</b>	Public Works Department

### **RECOMMENDATION / CITY COUNCIL ACTION**

The Public Works Department recommends that the City Council pass and adopt Resolution No. 10960 - A Resolution Authorizing the Public Works Department to Install All-Way Stop Sign Control at the Intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center.

### **BACKGROUND / ISSUE**

The Public Works Department received a request to evaluate the safety of the intersection of Montrose Drive and Lowe's/Trader Joe's shopping center and Home Goods/Target shopping center. Montrose Drive is classified as a local roadway and serves as a north-south connection between East Bidwell Street and Natoma Street. Most of the concerns are related to vehicle speeds of approaching traffic southbound from School Street and a concern about the line of sight of approaching vehicles when turning out from the Lowe's/Trader Joe's shopping center.

Staff requested that an all way stop sign analysis be performed by the City's on-call traffic engineering consultant, Kimley-Horn and Associates, Inc. Their conclusion was that "the intersection of Montrose Drive at Target/Trader Joe's Shopping Center Driveway satisfies AWSC (All-Way Stop Control) warrant guidance specified by CMUTCD (California Manual of Uniform Traffic Control Devices) methodologies. Furthermore, based on the vehicle speeds along Montrose Drive and field observations, there are two turning movement (eastbound turning left and right) with substandard intersection sight distance and stopping sight distance.

Based on these findings, it is recommended that the City consider the conversion to AWSC control at this intersection.”

### **POLICY / RULE**

Chapter 10.12 of the Folsom Municipal Code grants the City Council final authority with respect to the placement of new stop signs.

### **ANALYSIS**

This item was considered by the Traffic Safety Committee at its October 27, 2022, meeting which the Committee voted unanimously to recommend an all-way stop control. A copy of the Action Summary from that meeting is attached to this report.

The Kimley-Horn and Associates, Inc. Multi-Way Stop Sign Analysis warrant analysis is also attached to this report.

### **FINANCIAL IMPACT**

Installation of new signs and markings should not exceed \$6,000 and will be paid out of the Traffic Safety Projects, Project No. 8023, which is funded through Measure A (Fund 276).

### **ENVIRONMENTAL REVIEW**

This project has been deemed categorically exempt from environmental review.

### **ATTACHMENTS**

1. Resolution No. 10960 - A Resolution Authorizing the Public Works Department to Install All-Way Stop Sign Control at the Intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center
2. Action Summary – Traffic Safety Committee, October 27, 2022
3. CMUTCD Multi-Way Stop Sign Warrant Analysis performed by Kimley-Horn and Associates, Inc.
4. Map of Intersection

Submitted,

---

Mark Rackovan, PUBLIC WORKS DIRECTOR

**Attachment 1**

**Resolution No. 10960**

**RESOLUTION NO. 10960**

**A RESOLUTION AUTHORIZING THE PUBLIC WORKS DEPARTMENT TO  
INSTALL ALL-WAY STOP SIGN CONTROL AT THE INTERSECTION OF  
MONTROSE DRIVE AND LOWE'S/TRADER JOE'S SHOPPING CENTER AND  
HOME GOODS/TARGET SHOPPING CENTER**

**WHEREAS**, the Public Works Department received a request to evaluate traffic safety at the intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center; and

**WHEREAS**, the intersection is currently side street stop controlled; and

**WHEREAS**, Kimley-Horn and Associates, Inc. assessed the intersection and determined that all-way stop control is warranted based on line of sight and traffic volume; and

**WHEREAS**, the Traffic Safety Committee reviewed the request at its October 27, 2022 meeting and voted unanimously to recommend all-way stop control; and

**WHEREAS**, sufficient funds are budgeted and available in the Traffic Safety Projects, Project No. 8023, utilizing the Measure A Fund (Fund 276); and

**NOW, THEREFORE, BE IT RESOLVED** that the City Council of the City of Folsom authorizes the Public Works Department to install all-way stop sign control at the intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center.

**PASSED AND ADOPTED** this 13<sup>th</sup> day of December 2022, by the following roll-call vote:

**AYES:**      Councilmember(s):  
**NOES:**      Councilmember(s):  
**ABSENT:**      Councilmember(s):  
**ABSTAIN:**      Councilmember(s):

Christa Freemantle, CITY CLERK

## **Attachment 2**

**Draft Action Summary – Traffic Safety  
Committee, August 26, 2021**

City of Folsom  
**TRAFFIC SAFETY COMMITTEE**  
**MEETING MINUTES**  
4:00 p.m., Thursday, October 27th, 2022

*Effective July 7, 2022, the City of Folsom is returning to all in-person City Council, Commission, and Committee meetings. Remote participation for the public will no longer be offered. Everyone is invited and encouraged to attend and participate in City meetings in person.*

**1. MEETING CALLED TO ORDER**

Meeting called to order 4:08 pm

**2. ROLL CALL:**

Bailey, Bosch, Delp, Galovich, McGee, Soulsby, Washburn  
Present: Bailey, Bosch, Galovich, Soulsby Absent: Delp, Washburn

**3. APPROVE ACTION SUMMARY**

Action Summary of the regular September 22nd, 2022, meeting will stand approved unless any Committee member requests a revision.  
Bosch moved to approve Bailey seconded. Committee unanimous.

**4. BUSINESS FROM FLOOR/GOOD OF THE ORDER**

Discuss any items not on the agenda that a member of the public wishes to bring to the Committee's attention. The Committee cannot take formal action on the item but can request that it be placed on a future agenda for further discussion if necessary.  
A resident asked for an update regarding the new Pedestrian Signs coming on East Natoma and Bosch gave an update.

**5. ACTION ITEMS**

**1. NEIGHBORHOOD ISSUES**

**a. MONTROSE DRIVE STOP SIGN**

Soulsby moved and Bailey seconded, committee unanimous. Traffic safety recommends that City Council approve an all -way stop sign at the intersection of Montrose Drive and Lowe's/Trader Joe's Shopping Center and Home Goods/Target Shopping Center.

**b. PARKSHORE DRIVE & PLAZA DRIVE STOP SIGN REQUEST**

Bosch moved and Soulsby seconded, committee unanimous. This item was recommended to be postponed to a future agenda

**c. RANDALL DRIVE & SANTANA WAY STOP SIGN REQUEST**

Bailey moved and Soulsby seconded, committee unanimous. They recommend that the Public Works Department request that the petition submitter request additional signatures of support from the two homes on the corner closest to the proposed single stop sign and that they get more signatures from residents on Santana way.

**6. DISCUSSION ITEMS**

- a. **PROJECT UPDATE FOR MEDIAN BARRIER  
PROJECT ON EAST NATOMA**

Bosch provided an update and answered questions.

- b. **LIST OF FUTURE AGENDA ITEMS**

**7. ADJOURNMENT**

Meeting adjourned at 5:52

## **Attachment 3**

### **CMUTCD Multi-way Stop Sign Warrant Analysis**

# Memorandum

---

**To:** Zach Bosch, City of Folsom  
**From:** Amy Butler, EI  
Robert Paderna, P.E., RSP<sub>1</sub>  
**Re:** **Intersection Evaluation**  
*Montrose Drive at Target/Trader Joe's Shopping Center Driveway*  
**Date:** October 7, 2022

---

The purpose of this memorandum is to document the results of a traffic engineering evaluation of the intersection of Montrose Drive at Target/Trader Joe's Shopping Center Driveway (the "study intersection") in the City of Folsom, California. Kimley-Horn understands that the City of Folsom has received requests to evaluate the existing traffic conditions at the study intersection and to perform an All-Way Stop Control (AWSC) warrant analysis. The study intersection is currently a Side-Street Stop Control (SSSC) intersection with free movements along Montrose Drive. This evaluation has been completed to evaluate the need for intersection traffic control or other safety modifications based on observed existing conditions and traffic volume data.

### **Data Collection**

A site visit was completed on September 14, 2022, to observe intersection lane configurations, existing traffic control, speed limits, lane utilization, adjacent land uses, and other readily apparent features that were deemed by Kimley-Horn to be relevant to the Scope of Services.

Four (4) roadway segment volume counts were collected from 6:00am to 10:00pm on a Thursday, Friday, and Saturday (September 8<sup>th</sup>, 16<sup>th</sup>, and August 27<sup>th</sup>, respectively), due to the hours of operation of the businesses that access the study intersection's driveways. These counts were conducted along the approaches to the study intersection and speed data was also collected along the Montrose approaches. Site location can be seen in **Exhibit 1**. The traffic count sheets are provided in **Attachment A**.

### **Traffic Control Warrants**

An All-Way Stop Control (AWSC) warrant evaluation was completed for the study intersection based on the methodologies noted in Section 2B.07 of the *California Manual on Uniform Traffic Control Devices (CMUTCD), 2014 Edition (Revision 6, March 30, 2021)*. The evaluation of the AWSC warrant requirements determined that the warrant is satisfied for the study intersection. Summary sheets for the warrant evaluation are included as **Attachment B** to this memorandum.

### **Intersection Sight Distance**

An evaluation of sight distance for the study intersection was completed based on observed horizontal and vertical geometric conditions. These evaluations were performed in accordance with the guidelines presented in the *Geometric Design of Highways and Streets*, 2011, published by the American Association of State Highway and Transportation Officials (AASHTO), and the *Highway Design Manual*, published by Caltrans. The results of this evaluation are presented in **Table 1** (see **Exhibit 1** for a graphical depiction of the sight distance observations).

**Table 1 – Summary of Sight Distance Observations**

ID	Approach	Movement Direction	Observed SD (ft.)		Required Intersection Sight Distance (ft.) <sup>1</sup>	Status <sup>2</sup>	Achievable SD (ft.) <sup>3</sup>
			Looking Left	Looking Right			
A	Eastbound	Left	214	>500	250	Obstructed	>400
B	(Trader Joe's Driveway)	Right	214		250	Obstructed	>400
C	Westbound	Left	>500	>500	250	Acceptable	-
D	(Target Driveway)	Right	>500		250	Acceptable	-

*Notes: SD = Sight Distance, ISD = Intersection Sight Distance*

<sup>1</sup> Passenger Vehicles, assumed design speed of 35 mph due to 85<sup>th</sup> % 32 mph for southbound/northbound approaches

<sup>2</sup> Obstructed indicates that an object at a height above the elevation of the adjacent roadway blocks the drivers' view

<sup>3</sup> Achievable Sight Distance refers to the condition anticipated to be achieved with removal or maintenance of roadside vegetation, including the mentioned intermediate obstructions.

The intersection sight distance for the eastbound Trader Joe's Driveway approach looking to the left (vehicles looking toward southbound Montrose Drive) is insufficient. Currently, there is vegetation obstructing views for these motorists. If these obstructions were to be removed it would be possible to achieve acceptable intersection sight distance requirements. Caltrans' Highway Design Manual states that "the minimum value for corner sight distance at both signalized and unsignalized intersections shall be equal to the stopping sight distance as given in Table 201.1, measured as previously described." Table 201.1<sup>1</sup> presents the Stopping Sight Distance (SSD) based on design speed. Due to an 85<sup>th</sup> percentile speed of 32 mph for the northbound approach, the design speed used to determine the SSD was 35 mph. The SSD associated with 35 mph is 250 feet.

### **Summary and Recommendations**

The intersection of Montrose Drive at Target/Trader Joe's Shopping Center Driveway satisfies AWSC warrant guidance specified by CMUTCD methodologies. Furthermore, based on the vehicle speeds along Montrose Drive and field observations, there are two turning movement (eastbound turning left and right) with substandard intersection sight distance and stopping sight distance. Based on these findings, it is recommended that the City consider the conversion to AWSC control at this intersection.
