

CITY OF  
**FOLSOM**  
DISTINGUISHED BY NATURE

## Folsom City Council Staff Report

<b>MEETING DATE:</b>	5/25/2021
<b>AGENDA SECTION:</b>	Scheduled Presentations
<b>SUBJECT:</b>	Presentation on the Requirements of the City's Water Shortage Contingency Plan
<b>FROM:</b>	Environmental and Water Resources Department

### **BACKGROUND / ISSUE**

Environmental and Water Resources Director, Marcus Yasutake, will present information related to the City's Water Shortage Contingency Plan (WSCP). The WSCP is a detailed plan for how the City intends to identify and respond to foreseeable and unforeseeable water shortages. A water shortage occurs when the supply is reduced to a level that cannot support the normal demand at any given time or if the state mandates a cutback regardless of supplies. The intent of this document is to provide guidance to the City Council, City staff, and the public by identifying anticipated water shortages and response actions to allow for efficient management of any water shortage with predictability and accountability.

Submitted,
