## ANALYSIS

### Economic Update:

As of December 2022, unemployment was 3.7% and 3.5% in California and Sacramento County respectively and in Folsom, the unemployment rate was 2.5%. As a comparison, in December 2021, the unemployment rates were 4.8% in California, 4.7% in Sacramento County and 4.7% in Folsom. A comparison of home sales during the second quarter of FY 2022-23 and FY 2021-22 shows the number of homes sold decreased by 106 or 23.77%. The average median sales price through the second quarter of FY 2022-23 was \$741,250 which is an increase of 0.25% over FY 2021-22.

### General Fund:

Fiscal Year 2022-23 is currently projected to end the year with a General Fund unassigned fund balance of \$22.75 million. As a comparison, the unassigned fund balance in FY 2021-22 was \$23.26 million. The unassigned fund balance as a percentage of expenditures is projected at 21.04% for FY 2022-23 and for FY 2021-22, it was 23.69%. The unassigned fund balance as a percentage of expenditures is expected to continue to decline as costs continue to increase.

Fiscal Year 2022-23 total projected revenues of \$107.60 million is an increase of \$3.98 million, or 3.84% over the prior fiscal year, and a projected increase of \$2.26 million, or 2.15% over FY 2022-23 budgeted revenues of \$105.34 million. The increase is seen mostly in charges for services, intergovernmental revenue, sales tax and property tax.

Property tax received in the first half of the fiscal year was \$14.97 million and compared to the prior fiscal year is an increase of \$1.57 million. The current projection is for property tax to end the fiscal year with a slight increase of \$367,000 over the budgeted amount of \$36.05 million, which would be an increase of \$3.19 million from FY 2021-22 or 9.61%.

Sales tax is projected to end the fiscal year at \$28.38 million, an increase of \$482,000 over the budgeted amount of \$27.90 million. When compared to the results for FY 2021-22 sales tax revenues of \$27.90 million, total sales tax is projected to increase by only 1.73% year over year.

Through the second quarter, charges for services were \$7.08 million and the current projection for the end of FY 2022-23 is \$14.48 million. The projection of \$14.48 million is an increase from the \$13.11 million budgeted but a decrease from the \$15.84 million received in the prior year. The increase over the budgeted amount is mostly related to better than expected Parks and Recreation revenues, up \$401,000. Also, development charges are projected to be up \$801,000 over the budgeted amount, however, this is passed through for contracted services in the Folsom Plan Area. The decrease in charges for services when compared to the prior fiscal year is in development charges, down approximately \$821,000, related to a slowing of fee revenue related to the Plan Area development and a decrease in Parks and Recreation user fees of \$468,000.

Fiscal Year 2022-23 total projected General Fund expenditures are \$108.12 million, \$2.78 million (2.64%) more than the appropriated amount of \$105.34 million. The projected expenditure total includes salaries and benefits ending the year over budget by \$384,000, an increase in contracts of \$1.99 million and an increase in capital outlay of \$192,000. The projected increase in salaries is primarily in the Fire Department (\$1.56 million) and is mostly due to overtime and MOU changes, and this is partially offset by savings due to vacancies in the police department for part of the year (\$676k) and other vacancies city-wide.

Utility Enterprise Funds:

All three Utility Operating Funds are projected to end the fiscal year with operating revenues exceeding operating expenses. Working Capital in Water and Wastewater is projected to increase once capital expenses are included. Working Capital in Solid Waste is expected to decrease slightly. In the case of Water and Wastewater, the capital outlay is for capital projects and vehicles and in Solid Waste, it is the purchase of replacement vehicles.

A year over year comparison of the fiscal year-end projection of expenses and revenues in the combined operating and capital funds shows charges for service revenues in Water are currently projected to increase by \$1.36 million (7.61%) and operating expenses are projected to increase by \$2.46 million (24.50%). The increase in operating expenses is mostly seen in salaries and benefits, maintenance and operations, and contract costs. Wastewater Operating charges for services revenues are projected to increase by \$2.53 million (29.57%) and operating expenses are projected to increase by \$1.09 million (27.59%). The increase in expense in Wastewater is seen mostly in salaries and benefits, maintenance and operations, and contract costs. Solid Waste Operating charges for services revenues are projected to increase by \$1.56 million (7.94%) and operating expenses are projected to increase by \$3.76 million (28.84%). Increases in expenses are mainly due to employee and contract costs. The increase in expenses and revenues in Solid Waste are both directly attributable to the regulations regarding food waste and the change in recyclables.

Expenses for capital improvements are currently projected to increase across all three enterprise funds when compared to the prior year. The increase is due to budgeted project and vehicle replacement costs.

# Second Quarter Financial Report

## Fiscal Year 2022-23

CITY OF  
**FOLSOM**  
DISTINCTIVE BY NATURE

### Introduction

This financial report provides an overview of the City’s unaudited financial position through the second quarter of fiscal year (FY) 2022-23 (July 1, 2022, through December 31, 2022) for (1) the General Fund, (2) Housing Special Revenue Fund and L&L Districts, (3) the major enterprise operating funds, and (4) the Risk Management Internal Service Fund. Notable cumulative second quarter to second quarter and budget to actual comparisons are included in this report in addition to year-end projections.

### Executive Summary

During the first two quarters of FY 2022-23 almost all COVID-19 related restrictions had been lifted and the economy remained strong. However, additional influences are causing economic challenges. Persistent inflation and ongoing supply chain issues have caused costs to continuously increase. This is impacting almost all City departments as the cost of purchasing services and supplies and labor costs continue to grow at a faster rate than the City’s revenue sources.

This is resulting in current projected year-end General Fund revenues of \$107.60 million and projected expenditures of \$108.12 million, a deficit of \$515,000 by the end of the fiscal year. It is projected that the General Fund’s unassigned fund balance will decrease from \$23.26 million to \$22.75 million by the fiscal year end. Below is a chart of the unassigned fund balance over the last ten years and displays the projected change from FY 2021-22 to FY 2022-23.

## General Fund: Operating Revenues

The following table includes cumulative revenue comparisons through the second quarter of FY 2021-22 and FY 2022-23 and a revenue budget comparison for FY 2023-23 with year-end projections.

General Fund operating revenues through the second quarter are \$37.44 million, which is 3.64% less than the same period in FY 2021-22. Revenues are at 35.54% of the budget through the second quarter of the current year, primarily due to the timing associated with receiving some of the larger revenue sources. For instance, property tax is the largest General Fund revenue source, but funding is received in two installments, of which one has been received. The second installment will be received during the fourth quarter of the fiscal year.

The following is an explanation of the notable variances:

- Property tax revenues exceeded last year's cumulative second quarter by 11.73% or \$1.57 million. A comparison of home sales during the second quarter of FY 2022-23 and FY 2021-22 shows the number of homes sold decreased by 106 or 23.77%. The average median sales price through the second quarter of FY 2022-23 was \$741,250, which is an increase of 0.25% over FY 2021-22. The property tax revenue projection for Fiscal Year 2022-23 year-end is \$367,000 greater than the budgeted amount of \$36.05 million, which would exceed the prior year by \$3.19 million or 9.61%.
- Sales tax revenues also exceeded last year's cumulative second quarter by 4.13% or \$359,000. The most recent sales tax data shows the categories of general retail, food products, transportation and the countywide pool increasing over the same period last year, all other categories were flat or decreased when compared to the same quarter in the prior year. Inflation is the biggest factor in the increased sales tax, most significantly affecting the cost of gasoline and food. The threat of a recession is looming as the Federal Reserve continues to raise interest rates in an effort to get inflation under control.

Based on the latest sales tax forecast, sales tax is trending to end the year slightly above the budget at \$28.38 million, an increase from the prior year of \$482,000 or 1.73%. Below is a graph showing sales tax revenue for the current fiscal year and the past five fiscal years. This illustrates the dips and rises shallowing and leveling off.

- Transient Occupancy Tax (TOT) collections are at \$636,000 through the second quarter and are projected to end the fiscal year at \$2.20 million, a decrease of \$398,000, or 15.32% when compared to the FY 2021-22 amount. Hotel stays in FY 2021-22 were impacted favorably due to stays related to the Caldor Fire. The decrease projected for FY 2022-23 puts TOT collections more in line with a normal year.
- Charges for services, including building and engineering fees, Parks and Recreation user fees, and ambulance fees are at \$7.08 million through the second quarter and are projected to end the fiscal year at \$14.48 million. The current projection is \$1.36 million less than the prior year amount of \$15.84 million. The Parks and Recreation charges through the second quarter were \$2.24 million and a comparison to the same quarter in the prior fiscal year shows an increase of \$391,000. Ambulance fees through the second quarter were \$1.94 million and compared to the prior fiscal year this is an increase of \$182,000 or 10.35%. The projection for ambulance fees at fiscal year-end is \$4.50 million, which will be an increase from the prior year by \$267,000 or 6.31%. Community Development charges are at \$2.22 million through the second quarter and are currently projected to end the fiscal year at \$3.17 million. Compared to the prior fiscal year this would be a decrease of \$821,000 or 20.57%. The projected decrease in Community Development charges is due to a decrease in engineering activity, mostly in the Folsom Plan Area, through the second quarter.
- License and permit fees and Vehicle License Fees (VLF) quarter to quarter increased \$80,000 and are projected to end the fiscal year at \$12.33 million which would be a decrease of \$458,000 compared to the budget and a decrease of \$249,000 when compared to the prior year. The year over year decrease is due to slowing building permit activity mostly in the Folsom Plan Area.
- Miscellaneous revenues decreased 12.63% or \$57,000, through the second quarter when compared to the same period in the prior fiscal year.

### **General Fund: Department Operating Expenditures**

The following table includes cumulative second quarter actual expenditure comparisons for FY 2021-22 and FY 2022-23 and an expenditure budget-to-actual comparison for FY 2022-23.

Overall, cumulative second quarter General Fund expenditures decreased 4.26% compared to the second quarter of the prior year and are coming in at 42.51% percent of the budget through the second quarter of FY 2022-23. This is in part due to a high number of vacant positions in both the Police and Fire Departments for the first half of the fiscal year. The projection for the end of the fiscal year is for expenditures to be at \$108.12 million which would be \$2.78 million more than the budgeted amount or 102.64% of budget. The projected increase in expenditures is primarily due to increases in overtime, services and supplies, and contract costs.

The table below shows a comparison for FY 2021-22 and FY 2022-23 for each General Fund Department.

	<b>FY 21-22 Actual</b>	<b>FY 22-23 Actual</b>	<b>FY 22-23</b>	<b>FY 22-23</b>	<b>Over/Under</b>	<b>% of</b>

The following is an explanation of the department specific variances of year-end projections as compared to the budget:

- Police Department is projected to end the year under budget by \$671k due to vacant positions for a portion of the year.
- Fire department is projected to end the fiscal year \$2.15 million (8.33%) over the budgeted amount, which is mainly seen in overtime costs and vehicle maintenance. Overtime costs have been impacted by many vacant positions and long-term absences. Vehicle maintenance costs are up due to both inflation and the nature of maintaining aging equipment.
- Community Development department is projected to end the fiscal year \$1.66 million (26.16%) over the budgeted amount, which is mostly due to increases in contract costs that are partially offset by increased revenues.
- Non-Departmental is projected to end the fiscal year \$800,000 under budget, which represents the unspent portion of the contingency budget (\$900k total). However, it is anticipated that the contingency will be spent on emergency roof repair projects this fiscal year and the year-end expenditure projection will increase.

Overall General Fund departments' expenditures are trending at budget (in line with the 50% expectation) at this point in the fiscal year.

## Enterprise Funds:

### Water Fund

The Water Fund is reported on a combined basis and includes the following funds: Water Impact, Water Operating, Water Capital and Water Meters.

The table below includes cumulative second quarter actual revenue and expense comparisons for FY 2021-22 and FY 2022-23 and a budget to actual comparison for FY 2022-23 for the Water Operating Fund.

<b>Working Capital</b>			<b>\$ 18,536,188</b>	<b>\$ 20,964,631</b>		

The Wastewater Fund is projected to end the year with program revenues of \$11.16 million. Total operating expenses, including transfers out, are projected to end the year at \$5.82 million, or 93.42% of budget. This reduction from budgeted amounts is mostly due to vacant positions for part of the fiscal year. Total expenditures for capital projects are estimated to be \$2.91 million at year-end. The fund will end the year with projected working capital of \$20.96 million.
