FORESTPARK

City Council Agenda Item

Subject: Steve Lundquist Indoor Pool – Soils and Building Foundation Investigation Report – Recreation and Leisure Department

Submitted By: Marquessa Moore, Aquatic Coordinator

Date Submitted: May 18, 2023

Work Session Date: June 05, 2023

Council Meeting Date: June 05, 2023

Background/History:

A full Soils and Building Foundation Investigation was conducted by Engineered Systems & Services to find the source of the ongoing leak in the indoor pool. ESS evaluated the pool shell foundation, integrity of the building's foundation, and the soil surrounding it to determine if there was any evidence of structural damage present.

This report is being submitted and presented to provide transparency to the council and the citizens of the City of Forest Park about the ongoing work being done to the indoor pool.

Cost: \$ N/A

Budgeted for: _____ **Yes** _____ **No**

Financial Impact:

N/A

Action Requested from Council:

This report is being submitted and presented to provide transparency to the council and the citizens of the City of Forest Park about the ongoing work being done to the indoor pool.
