If you selected multiple boards, which is your preferred choice: Sustainability Commission (4th Thursday, 6pm)

Please indicate why you would like to be reappointed.

It seems we have better Council direction as to our objectives and role. Working well as part of the existing team, but I think we can improve, now that we have a better understanding of each others' interests and skills

What specific topics interest you that relate to the board?

Since our mission is guided by the Board's agenda and goals, finding a DIRECT role for the SC is difficult because the SC's mission is so broad and the Council'd quite specific. Personally, I think the most important thing we could do in terms of sustainability, would be a review of the City Charter.

Please rate the City's performance. Fair

What ideas do you have for improving "Fair" or "Poor" performance?

It would be helpful if the City were to be quite specific about what objectives they want the SC to research and comment upon and what they do NOT want us considering. Some important "false starts" with the Burn Subcommittee could have been avoided and the work completed in a more timely manner if the communications between Council and Committee had been made considerably more clear.
