BACKGROUND / DISCUSSION

The Homeland Security Grant Program supports preparedness activities to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response and Recovery mission areas essential to achieving National Preparedness Goals. This is a federal pass through grant from the U.S. Department of Homeland Security Federal Emergency Management Agency (FEMA).

City of Fort Collins received funding for a replacement fire extinguisher training system to enhance tactical readiness of Community Emergency Response Teams (CERT) to better prepare community members to act as critical immediate responders.

Poudre Fire Authority (PFA) received funding to support a specialized cybersecurity training for IT and technical staff through the SANS Institute. This training is intended to provide staff with the skills necessary to proactively protect systems from cybersecurity threats.

Each entity applied for their own funding through this program. DHSEM requested that they issue a single award to City as the financial beneficiary.
