A. The City Council is empowered and directed by City Charter Article XII, Section 6, by ordinance from time to time, to fix, establish, maintain and provide for the collection of such rates, fees or charges for utility services furnished by the City as will produce revenues sufficient to pay the costs, expenses, and other obligations as set forth therein.

B. The rates, fees or charges for utility services set forth herein are necessary to produce sufficient revenues to provide the utility services described herein.

C. The revenue from the rates, fees or charges for utility services set forth herein shall be used to defray the costs of providing such utility services as required by the Charter and the City Code.

D. Article IV, Chapter 26 of the City Code establishes the wastewater utility as a utility service furnished by and as an enterprise of the City.

E. City Code Sections 26-280 and 26-282 concern various wastewater-related rates, fees, and charges.

F. City Code Section 26-277 requires that the City Manager analyze the operating and financial records of the utility during each calendar year and recommend to the City Council user rates or adjustments to be in effect for the following year.

G. The City Manager and City staff have recommended to the City Council adjustment of the wastewater-related rates, fees, and charges as set forth herein to be effective January 1, 2025.
