PARTNERSHIP

This award underscores one of the primary reasons the National League of Cities selected USP as a partner and extended our agreement for another five years. The organization's exemplary record of customer service and transparency is what has driven the success of this partnership over the years.

National League of Cities

AGING INFRASTRUCTURE IS PROBLEMATIC FOR CITIES & HOMEOWNERS

- Lateral lines are subjected to the same elements as public lines -ground shifting, fluctuating temperatures, tree root penetration, corrosion and more
- Failed lines waste thousands of gallons of water and present an environmental hazard
- Common homeowner misconceptions the municipality is responsible for maintenance of the water and sewer lines on their property or repairs are covered by their homeowner's policy

FINANCIAL SHOCK – AN UNPLANNED EXPENSE

78% of homeowners surveyed believe the utility provider should educate them on repairs and preventative measures

59% of homeowners surveyed have had a home repair emergency in the past year

40% 4 out of 10 Americans can't afford a \$400 emergency expense (and would have to sell something or take out a loan to cover it).*
